Soviet Condemned In UN Session On Hungary Issue

UNITED NATIONS, N. Y. (AP)—Western U. N. delegates expressed satisfaction today over the solid support they received both inside and outside the Security Council for their effort to end the bloodshed in Hungary.

Messages poured in from governments all over the world backing up the West's demands that Russia halt her military intervention. Some Western diplomats felt that this public pressure, plus the reported demands of the Hungarian government, might produce results.

The council recessed its discussion temporarily after 5 1/2 hours of debate in an extraordinary Sunday session. Private talks were in progress to determine what the next step would be.

In the council debate the Soviet Union failed to rally a single country to support her claim that the United States had started all the trouble in Hungary and that Soviet troops were only helping the Hungarian government restore order.

HUNGARIAN Delegate Peter Kos in a letter to U. N. Secretary General Dag Hammarskjold had contended the events in Hungary "and the measures taken in the course of these events" were a domestic matter outside the jurisdiction of the U. N. But at the council meeting Kos said he would say nothing until he received instructions from Budapest.

Western delegates considered this especially significant since news dispatches were quoted in the meeting indicating that Premier Imre Nagy's version of the rebellion did not jibe with that of Soviet Delegate Sobolev.

The council met at the request of the United States, Britain and France to consider "the situation created by the action of foreign military forces in Hungary in violently repressing the rights of the Hungarian people."

Sobolev tried to get the issue thrown out, but 9 of the 11 council members overrode his objections. Yugoslavia abstained on this and on a Soviet effort to postpone the debate. Yugoslavia also sat out the debate without taking sides.

The Western Big Three received the support of the six other council members for their demands that Russia stop interfering in Hungarian affairs. In an unprecedented move, messages of support came pouring in from many non-members of the council, including Turkey, Argentina, the Philippines, Thailand, Italy, Austria, Ireland and Spain.

THE WESTERN delegates made no formal proposals to the council but directed their demands directly at Russia. In some cases, the language was sharp.

U. S. Delegate Henry Cabot Lodge Jr. said that if it were not so tragic it would be laughable to hear the Soviet Union complain about U. S. interference in the internal affairs of Hungary "when every edition of the newspapers tell of the Soviet army killing Hungarians in large numbers."

He called the Russians "murderers of innocent women and children."

WASHINGTON (AP)—U. S. officials said today that Eastern European states trying to cast off Russian rule must be expected to go slow in seeking any American economic aid they need.

Secretary of State Dulles has declared the United States is ready to share its "abundance" with the Communist satellites as they gain independence. Without giving details, he said that this government "is actively concerned with the suffering" of the Hungarians and will do what it can to help them.

The State Department, anxious to exploit any cracks in the Soviet empire, has been working on plans for various kinds of assistance—financial, commercial, political and the like.

The weekend action of the United States, Britain and France in taking the case of Soviet military operations in Hungary to the United Nations Security Council represents a decision to give political aid.

But if Hungary is to secure independence from Soviet rule, if Poland is to anchor its own freedom of Russian domination firmly, each country will have to obtain outside economic aid.

U. S. officials, however, believe that Titoist type leaders in all the Eastern European countries want to maintain friendly relations with Russia, even though this means a slower attack on their rebuilding problems.

Murder-Suicide Is Death Verdict

DAYTON (AP)—The deaths Saturday of Kelly Paris, a 38-year-old painter, and his estranged wife Doris Catherine, 26, have been ruled murder and suicide by Coroner Dr. Robert E. Zipp.

Both were dead when police arrived about 3:30 p. m. at the two-room apartment where Mrs. Paris lived with her son David, 9. The couple had been separated about three months, although it was reported the husband was trying to effect a reconciliation.

The coroner said Mrs. Paris was shot three times in the chest. He said Paris shot himself in the heart.

Jaycees Complete Plans For Halloween Parade

Wednesday night will be the time for hobgoblins and witches to go abroad in the persons of hundreds of youngsters.

This will be the night for the annual Halloween parade and culminating celebration at Gardner Park.

The Jaycees are sponsoring the event again this year.

The celebration will be broadly in two parts: 1. The parade and 2. the masquerade competition at the park.

The parade is to assemble on Market St. beside the high school building at 7 p. m. and move to the park at 7:30 p. m., headed by the WHS Varsity Marching Band in full uniform.

There are no age limits, but if the past is any tip on the future, most of the paraders will be kiddies, some of them so small that their parents will have to go along with them.

THE PARADE ROUTE is south on North St. to Court St., west on Court St. to Main St. and then south on Main St. to the park on Circle Ave.

Jaycees have been assigned to patrol the line of march and keep it moving smoothly.

At the park, the paraders in costume are to circle the football field under the lights where the judges will pick out the prettiest, ugliest, best group of three or more, most original, and funniest masqueraders. Prizes of \$3, \$2 and \$1 will be awarded.

Prizes of \$10, \$7 and \$5 have been set up for the floats in the parade. One of the committee said at least three floats are expected to participate.

THE HALLOWEEN parade and festivities at the park, for years one of the big events of autumn here, will follow by one day another Halloween feature—the Trick or Treat Night Tuesday.

Weekend Mishaps Kill 20 in Ohio

COLUMBUS (AP)—A total of 20 violent deaths were recorded in Ohio's weekend accidents.

Of the total, four were killed by fire and the balance in traffic mishaps. The survey was for the period from 6 p. m. Friday through midnight Sunday.

Adlai Say Ike's H-Bomb Attitude Shows 'Defeatism'

BOSTON (AP)—Adlai E. Stevenson attributed to President Eisenhower today an attitude of "hopeless defeatism" on "how to save the world from hydrogen devastation."

And he said, in a blistering reply to Eisenhower's H-bomb "white paper" of last week, the President "seems insensitive to the danger of radioactive fall-out from H-bomb explosions."

The Democratic standard bearer's statement and his own accompanying 3,000-word "H-bomb memorandum" constituted another round in the campaign controversy precipitated by his proposal for a ban on tests of super-bombs.

The memorandum said Eisenhower's assertion that a simple voluntary agreement with the Russians would allow "no safeguards, no control, no inspection" to insure stoppage of H-bomb tests disregards the key fact that violations of such an agreement "can no more be hidden than an earthquake."

THE EISENHOWER "white paper" maintained it is impossible "in view of the vast Soviet land mass that can screen possible future tests—to have positive assurance of such detection, except in the case of the largest weapons. Nor is it possible to state, immediately following the long-range detection of a test, its size and character."

Convinced he is making headway with his proposal to halt H-bomb tests, Stevenson replied to Eisenhower's rejection of it with these

points:

1. The President's arguments, when shaken down, have the net effect of "hopeless defeatism."
2. The President is not only hostile to new constructive thinking by others on how to save the world from hydrogen devastation, but he quite clearly has no creative or hopeful ideas of his own in this critical field.
3. Even as "a political paper," Eisenhower's white paper "is remarkable for misstatements and distortions," especially the President's effort to "create the impression that my proposal would somehow weaken the defenses of the United States."
4. "My proposal for an agreement to stop the test-explosions of the big H-bombs would, if accepted, strengthen the military position of the United States in relation to Russia," Stevenson continued.

"WE ARE AHEAD of the Russians in H-bomb development, as the President himself has said, and to freeze the H-bomb race at the present levels would prevent the Russians from catching up with us, so long as an agreement is in force on this very important weapon."

THE EISENHOWER "white paper" maintained it is impossible "in view of the vast Soviet land mass that can screen possible future tests—to have positive assurance of such detection, except in the case of the largest weapons. This is the night set aside particularly for the little folks, said City Manager James F. Parkinson, who set the date for it.

Meanwhile, city police, the sheriff's department and the state Highway Patrol are tightening their watch for vandalism.

Spokesmen for all three law enforcement agencies said "vandalism is vandalism, no matter whether it is done in the guise of a Halloween observance," and will be treated as such under the law.

Although some of the vandalism reported in the city may have some connection with Halloween, police are inclined to think there is little relation between the two.

SHERIFF ORLAND HAYS and the Highway Patrol said they have been getting reports of road blocks, fence-cutting and gate-opening in the rural area of the county and commented that they are increasing their night patrols.

Ike Labeled 'Captive' of Reactionaries

FINDLAY (AP)—Sen. Estes Kefauver today described President Eisenhower as a "willing captive" and a "front man for Richard Nixon."

The Democratic vice-presidential nominee, swinging into his final drive for the crucial electoral votes of a bloc of populous Midwestern and Northeastern states, threw some of the harshest language of his campaign at Eisenhower and Vice President Nixon.

Kefauver's speech was prepared for a rally here. He said Eisenhower "has failed utterly, abjectly, miserably, to do what he professed to set out to do."

After promising to advance the cause of good government, Kefauver said, Eisenhower "gave us an administration bloated and smeared with corruption among high government officials . . . dominated by big business and the narrowest of special interests."

He said that Eisenhower became "an easy and willing captive" of those whom the Democratic candidate described as the reactionary Republicans.

"He has exchanged a place of honor in history for a secondary role in politics," Kefauver said, "the role of a front man for Richard Nixon."

He termed Nixon "the new leader of the reactionaries" and said "the ultimate capitulation of President Eisenhower took place when he embraced" Nixon's renomination.

These Pinball Slugs Came from Pistol

LOUISVILLE, Ky. (AP)—Carl Morris, 30, was arrested Sunday because he put "slugs" into a pinball machine. He said he pumped eight bullets from a .22 caliber pistol into the machine because "it won't pay off."

Morris said he "just got mad" after losing about \$100 in four weeks to the machine. "I couldn't win on it. It just won't pay off," Morris charged. Said the wife of the cafe operator: "It's not supposed to pay off. It's for amusement only."

Fayette County First To File Realty Abstract

Million-Dollar Gain Seen on Total Valuation

For the first time in the history of the Fayette County auditor's office, this county was the first in Ohio to file its abstract on taxable valuation of the county's real estate. On all taxable valuations this county will show a gain of over one million dollars.

This was learned Monday morning by county commissioners in a telephone conversation with a representative of the State Tax Commission.

County Auditor Harry Allen and his staff said they were elated by the announcement, since it reflects efficiency in getting the heavy amount of work done in time to rank as the No. 1 county to file. Mrs. Mary Morris, assisted by Miss Marie Marchant were in charge of the abstract work. Both have been on the auditor's office staff for a number of years.

THE FIGURES on the abstract filed show a gain of \$808,010 for the 1956 abstract in real estate values over last year. The total for 1956 was \$40,257,970 as against the former year's total of \$39,449,960.

The personal property and classified tax for 1956 also has been filed showing a total of \$12,711,127. Last year this total was \$12,496,837, a gain for this year of \$214,290.

The public utilities' taxable valuations in this county for 1956 are yet to be added to Fayette County's total, but this valuation is fixed by the state and the auditor's office is instructed what figures to use. Last year the utilities tax valuation was \$8,588,310.

THE TOTAL tax valuation for the county, real estate, personal property and utilities, will exceed last year, but by how much is a question until the state notifies the auditor here about the utilities. Upon the presumption that the utilities total will not be less than last year, Fayette County's total valuation will be at least \$61,557,407, a gain of slightly more than one million dollars.

New Polish Regime Frees Church Leader

WARSAW (AP)—Stefan Cardinal Wyszynski made his first public appearance today since his release from house arrest. A crowd of cheering, singing Polish Roman Catholics greeted him.

The cardinal, Roman Catholic primate of Poland, walked out on the balcony above the main entrance to his palace and called for a mature approach to Poland's problems. He asked that there should be no demonstrations and no disorders.

A government communique said the 55-year-old church leader had returned to Warsaw and resumed his church functions.

The cardinal had been confined to a country monastery in September 1953 after a vigorous campaign against Communist infringement on religious freedom.

There was no immediate comment from the Vatican on the Polish announcement. After Cardinal Wyszynski's arrest, the Vatican has said no government could relieve a cardinal of his duties.

The freeing of Cardinal Wyszynski is certain to arouse fervent enthusiasm from a wide section of the Polish population, about 90 per cent of which is Roman Catholic. The clemency was another move by Wladyslaw Gomulka, the anti-Stalinist restored to power last week as chief of the Polish Communist party, to unite the nation for an assault on Poland's economic difficulties.

Meanwhile, indications mounted that Marshal Konstantin Rokossovsky, Poland's Stalin-installed defense minister, is no longer in direct control of the Polish army. An informed source said Rokossovsky is officially "on leave."

Finding Raps Both Phone Firm, Union

COLUMBUS (AP)—The Ohio Industrial Commission today held both the union and the company equally responsible for failure to settle the violence-marked southern Ohio telephone strike that began last July 15.

The strike of the Communication Workers of America against the Ohio Consolidated Telephone Co. has disrupted service in a 24-county area at various times.

The commission report today was based on a recent hearing in which both sides in the dispute were called in to present their case. The union did present its case, but an attorney for the company appeared only briefly to protest the legality of the hearing.

The commission made these recommendations on the three major issues in dispute between the company and the union:

Union Shop — "The position of the union with reference to the preserving of the 'union shop' provision is valid and it is recommended that the same be contained in any new agreement."

CLASSIFICATIONS of supervisors by the company — "The commission recommends that this issue be promptly submitted to the National Labor Relations Board for decision."

No-strike arbitration — "The

commission believes that the best solution to this problem lies in full arbitration; the commission is compelled to conclude that full arbitration cannot be had because of the opposition of the company."

"As far as the failure to reach an amicable settlement is concerned," the report said, "it must be concluded that this is due equally to the union and the company."

"In this respect, the responsibility for the existence and continuance of the strike must be borne equally by the parties."

Homer H. Hickling, industrial commission chief counsel, said the report had no legal force to compel (Please turn to page twelve)

Ike Campaigns In Deep South

President's Views On Civil Rights Told

MIAMI, Fla. (AP)—President Eisenhower opened a vote-seeking expedition into the deep south today with a call for handling the explosive civil rights problem "to the greatest possible extent on a local and state basis."

The President, feeling good about a favorable medical report from his doctors, flew here from Washington for the start of a one-day campaign foray in Dixie.

Eisenhower put out a statement Sunday saying he had received reports indicating "almost complete" mobilization of Israeli armed forces on the nation's borders with Arab neighbors.

Eisenhower appealed to Prime Minister David Ben-Gurion of Israel to avoid any move "which would endanger the peace."

The President issued his statement at Walter Reed Army Hospital shortly before his doctors got out a report on the pre-examination physical examination he promised America's voters. Eisenhower entered the hospital Saturday, stayed 7 hours.

The physicians' report said the President "gives every appearance of being in excellent health." Their findings dealt mainly with his condition in relation to the major abdominal surgery he underwent last June 9, and his heart attack Sept. 24, 1955.

IN BOTH CASES the doctors reported good recovery. Eisenhower has said several times that if he ever felt he could not handle his job as President properly, then he no longer would be available for the job and would tell the people so promptly.

Speaking at a campaign rally at Miami's International Airport, the President made no specific mention of a Supreme Court ruling against racial segregation in the nation's public schools — a ruling still being resisted by Florida and other deep South states. For that matter, Eisenhower did not even use the term "civil rights."

The views Eisenhower set forth here, including his assertion the problem should be handled by the state and local communities to the greatest possible extent, amounted to reiteration of what he has said regarding the matter on many other occasions. "But it was the first time in the campaign he had outlined them in the South, where the doctrine of state's rights always is popular.

Israel Hinted Ready for Lab at Arabs

America Sends Pair Of Warnings against 'Endangering Peace'

By THE ASSOCIATED PRESS
With most of the world absorbed by anti-Russian activities in Hungary and Poland, Western observers were keeping a close watch on the Holy Land where one American expert said a crisis could be reached within a few hours.

Despite warnings from the United States, Israel, bolstered her Arab borders today with reserve battalions called up in what the government termed a "partial mobilization."

"Reports said Israel had mobilized from 150,000 to 200,000 men along her frontiers.

The United States took a grave view of the renewed mobilization and urged Americans to leave the Middle East unless their presence was essential.

The Israeli government, announcing the callup of the reserves, said it was "to block any possible enemy attack and afford sufficient breathing space in case of attack."

Tension in Israel has mounted since Jordan, which has the longest frontier with Israel of any Arab state, formed a joint military command with Syria and Egypt last week. A pro-Egyptian Parliament was elected in Jordan a week ago.

President Eisenhower sent two messages to Premier David Ben-Gurion cautioning Israel to avoid any act "which would endanger the peace."

HE SAID in Washington the United States had information of "almost complete" military mobilization in Israel, "with consequent" stoppage of many civil activities.

The U. S. President said he had also called on the Arab countries to "refrain from any action which could lead to hostility," but that he had no report that Israel's neighbors have undertaken any "such large scale mobilization."

A responsible Washington official, who asked not to be quoted by name, said the Middle East picture is far more serious than at any time since the 1948 Israeli-Arab conflict. He said the next 24 hours will be critical.

The main American fear seemed to be that Israel might regard the next few days as an ideal time to strike a blow at its Arab foes.

Israel might decide, officials felt, that Russia is so deeply involved in trying to cope with its Eastern European difficulties that it would not be apt to rush aid to the Arabs in the Middle East, and that the United States is so concerned by its approaching election that it is not likely to take decisive action.

Doctor Puts OK On Ike's Trips

CINCINNATI (AP)—The doctors who examined President Eisenhower over the weekend "believe it is all right" for him to pursue scheduled campaign tours.

That's the report by Dr. Paul Dudley White of Boston, a heart specialist who treated the President after his heart attack and was one of the examining doctors in the checkup.

Dr. White, here to attend the annual meeting of the American Heart Assn., said that the President "has been working pretty hard" but "gives every appearance of being in excellent health."

CHICAGO (AP)—Chilly air and rain was reported in the northwest today while the rest of the country featured generally warmer weather with partly cloudy skies and scattered rain.

A cold air mass hovered over the northwest from the Dakotas, Colorado and Utah into most of California. Temperatures ranged from the 20s in the north to the lower 50s in southern California.

Lower temperature readings were forecast today from Minnesota to Iowa and Kansas and in the far southwest.

Circus Tour Brings Weight Of Man Up to 1,041 Pounds

FISHHOOK, Ill. (AP)—Robert Earl Hughes, who claims to be the world's fattest man, has returned home from a summer tour with a circus nearly 100 pounds heavier.

Because of his great bulk, the 26-year-old Hughes gets weighed only infrequently. For scaling purposes, he usually is brought to commercial scales in Fishhook aboard a truck from his farm home near this town in west central Illinois.

The last time Hughes was weighed he tipped the scales at 946 pounds. Brought to town after his summer stint with the circus, Hughes weighed 1,041 pounds, a

net gain of 95 over his previous bulk.

Nobody thought to take his measurements at his latest weighing. But at 946 pounds, Hughes' waist is 115 inches.

Other members of Hughes' family, including his father and two brothers, are average size persons. Hughes attributed his great bulk to a seige of whooping cough, when he was two years of age. He believes the paroxysms of coughing somehow upset nature's balance and a glandular disorder resulted.

Around 11 pounds at birth, Hughes was up to 350 pounds when he was 10 years old.

Million-Dollar Gain Seen on Total Valuation

For the first time in the history of the Fayette County auditor's office, this county was the first in Ohio to file its abstract on taxable valuation of the county's real estate. On all taxable valuations this county will show a gain of over one million dollars.

The personal property and classified tax for 1956 also has been filed showing a total of \$12,711,127. Last year this tax total was \$12,496,837, a gain for this year of \$214,290.

The public utilities' taxable valuations in this county for 1956 are yet to be added to Fayette County's total, but this valuation is fixed by the state and the auditor's office is instructed what figures to use. Last year the utilities tax valuation was \$8,588,310.

THE TOTAL tax valuation for the county, real estate, personal property and utilities, will exceed last year, but by how much is a question until the state notifies the auditor here about the utilities. Upon the presumption that the utilities total will not be less than last year, Fayette County's total valuation will be at least \$61,557,407, a gain of slightly more than one million dollars.

New Polish Regime Frees Church Leader

WARSAW (AP)—Stefan Cardinal Wyszyński made his first public appearance today since his release from house arrest. A crowd of cheering, singing Polish Roman Catholics greeted him.

The cardinal, Roman Catholic primate of Poland, walked out on the balcony above the main entrance to his palace and called for a mature approach to Poland's problems. He asked that there should be no demonstrations and no disorders.

A government communique said the 55-year-old church leader had returned to Warsaw and resumed his church functions.

The cardinal had been confined to a country monastery in September 1953 after a vigorous campaign against Communist infringement on religious freedom.

There was no immediate comment from the Vatican on the Polish announcement. After Cardinal Wyszyński's arrest, the Vatican has said no government could relieve a cardinal of his duties.

The freeing of Cardinal Wyszyński is certain to arouse fervent enthusiasm from a wide section of the Polish population, about 90 per cent of which is Roman Catholic. The clemency was another move by Wladyslaw Gomulka, the anti-Stalinist restored to power last week as chief of the Polish Communist party, to unite the nation for an assault on Poland's economic difficulties.

Meanwhile, indications mounted that Marshal Konstantin Rokossovsky, Poland's Stalin—installed defense minister, is no longer in direct control of the Polish army. An informed source said Rokossovsky is officially "on leave."

Finding Raps Both Phone Firm, Union

COLUMBUS (AP)—The Ohio Industrial Commission today held both the union and the company equally responsible for failure to settle the violence-marked southern Ohio telephone strike that began last July 15.

The strike of the Communication Workers of America against the Ohio Consolidated Telephone Co. has disrupted service in a 24-county area at various times.

The commission report today was based on a recent hearing in which both sides in the dispute were called in to present their case. The union did present its case, but an attorney for the company appeared only briefly to protest the legality of the hearing.

The commission made these recommendations on the three major issues in dispute between the company and the union:

Union Shop — "The position of the union with reference to the preserving of the 'union shop' provision is valid and it is recommended that the same be contained in any new agreement."

CLASSIFICATIONS of supervisors by the company — "The commission recommends that this issue be promptly submitted to the National Labor Relations Board for decision."

No-strike arbitration — "The

commission believes that the best solution to this problem lies in full arbitration; the commission is compelled to conclude that full arbitration cannot be had because of the opposition of the company."

"As far as the failure to reach an amicable settlement is concerned," the report said, "it must be concluded that this is due equally to the union and the company."

"In this respect, the responsibility for the existence and continuance of the strike must be borne equally by the parties."

Homer H. Hickling, industrial commission chief counsel, said the report had no legal force to compel (Please turn to page twelve)

Ike Campaigns In Deep South

President's Views On Civil Rights Told

MIAMI, Fla. (AP)—President Eisenhower opened a vote-seeking expedition into the deep south today with a call for handling the explosive civil rights problem "to the greatest possible extent on a local and state basis."

The President, feeling good about a favorable medical report from his doctors, flew here from Washington for the start of a one-day campaign foray in Dixie.

Eisenhower put out a statement Sunday saying he had received reports indicating "almost complete" mobilization of Israeli armed forces on the borders with Arab neighbors.

Eisenhower appealed to Prime Minister David Ben-Gurion of Israel to avoid any move "which would endanger the peace."

The President issued his statement at Walter Reed Army Hospital shortly before his doctors got out a report on the pre-election physical examination he promised America's voters. Eisenhower entered the hospital Saturday, stayed 10 hours.

The physicians' report said the President "gives every appearance of being in excellent health." Their findings dealt mainly with his condition in relation to the major abdominal surgery he underwent last June 9, and his heart attack Sept. 24, 1955.

IN BOTH CASES the doctors reported good recovery. Eisenhower has said several times that if he ever felt he could not handle his job as President properly, then he no longer would be available for the job and would tell the people so promptly.

Speaking at a campaign rally at Miami's International Airport, the President made no specific mention of a Supreme Court ruling against racial segregation in the nation's public schools — a ruling still being resisted by Florida and other deep South states. For that matter, Eisenhower did not even use the term "civil rights."

The views Eisenhower set forth here, including his assertion the problem should be handled by the state and local communities to the greatest possible extent, amounted to reiteration of what he has said regarding the matter on many other occasions. But it was the first time in the campaign he had outlined them in the South, where the doctrine of state's rights always is popular.

Circus Tour Brings Weight Of Man Up to 1,041 Pounds

FISHHOOK, Ill. (AP)—Robert Earl Hughes, who claims to be the world's fattest man, has returned home from a summer tour with a circus nearly 100 pounds heavier.

Because of his great bulk, the 30-year-old Hughes gets weighed only infrequently. For scaling purposes, he usually is brought to commercial scales in Fishhook aboard a truck from his farm home near this town in western Illinois.

The last time Hughes was weighed he tipped the scales at 946 pounds. Brought to town after his summer stint with the circus, Hughes weighed 1,041 pounds, a

net gain of 95 over his previous bulk.

Nobody thought to take his measurements at his latest weighing. But at 946 pounds, Hughes' waist was 115 inches.

Other members of Hughes' family, including his father and two brothers, are average size persons. Hughes attributed his great bulk to a seige of whooping cough, when he was two years of age. He believes the paroxysms of coughing somehow upset nature's balance and a glandular disorder resulted.

Around 11 pounds at birth, Hughes was up to 350 pounds when he was 10 years old.

Israel Hinted Ready for Jab at Arabs

America Sends Pair Of Warnings against 'Endangering Peace'

By THE ASSOCIATED PRESS. With most of the world absorbed by anti-Russian activities in Hungary and Poland, Western observers were keeping a close watch on the Holy Land where a crisis could be reached within a few hours.

Despite warnings from the United States, Israel, bolstered by Arab borders today with reserve battalions called up in what the government termed a "partial mobilization."

Reports said Israel had mobilized from 150,000 to 200,000 men along her frontiers.

The United States took a grave view of the renewed mobilization and urged Americans to leave the Middle East unless their presence was essential.

The Israeli government, announcing the callup of the reserves, said it was "to block any possible enemy attack and afford sufficient breathing space in case of attack."

Tension in Israel has mounted since Jordan, which has the longest frontier with Israel of any Arab state, formed a joint military command with Syria and Egypt last week. A pro-Egyptian Parliament was elected in Jordan a week ago.

President Eisenhower sent two messages to Premier David Ben-Gurion cautioning Israel to avoid any act "which would endanger the peace."

HE SAID in Washington the United States had information of "almost complete" military mobilization in Israel, "with consequent" stoppage of many civil activities.

The U. S. President said he had also called on the Arab countries to "refrain from any action which could lead to hostility," but that he had no report that Israel's neighbors have undertaken any "such large scale mobilization."

A responsible Washington official, who asked not to be quoted by name, said the Middle East picture is far more serious than at any time since the 1948 Israeli-Arab conflict. He said the next 24 hours will be critical.

The main American fear seemed to be that Israel might regard the next few days as an ideal time to strike a blow at its Arab foes.

Israel might decide, officials felt, that Russia is so deeply involved in trying to cope with its Eastern European difficulties that it would not be apt to rush aid to the Arabs in the Middle East, and that the United States is so concerned by its approaching election that it is not likely to take decisive action.

Doctor Puts OK On Ike's Trips

CINCINNATI (AP)—The doctors who examined President Eisenhower over the weekend "believe it is all right" for him to pursue scheduled campaign tours.

That's the report by Dr. Paul Dudley White of Boston, a heart specialist who treated the President after his heart attack and was one of the examining doctors in the checkup.

Dr. White, here to attend the annual meeting of the American Heart Assn., said that the President "has been working pretty hard" but "gives every appearance of being in excellent health."

Northwest Getting Chilly Air, Rain

CHICAGO (AP)—Chilly air and rain was reported in the northwest today while the rest of the country featured generally warmer weather with partly cloudy skies and scattered rain.

A cold air mass hovered over the northwest from the Dakotas, Colorado and Utah into most of California. Temperatures ranged from the 20s in the north to the lower 50s in southern California.

Lower temperature readings were forecast today from Minnesota to Iowa and Kansas and in the far southwest.

Russia to Keep Troops in Fight At Budapest

MOSCOW (AP)—Soviet Foreign Minister Dmitri Shepilov said tonight Soviet troops will be withdrawn from Budapest only when the rebels in that city lay down their arms. He declined to say if Soviet troops will leave Hungary entirely.

The Soviet minister of defense, Marshal Georgi Zhkov, said the withdrawal of Soviet troops from Hungary was a question that could be decided only by common agreement among the members of the Warsaw pact.

Hungary's new and shaky Communist government also said Soviet troops would leave Budapest as soon as the rebels lay down their arms. Defiant rebel radio broadcasts immediately rejected the whole idea.

The freedom radio at Győr, rebel stronghold in the northwest, called on revolution fighters to hang on to their weapons and not surrender to Premier Imre Nagy, "a tool of the Communists."

The rebel radio at Miskolc urged students in Budapest to pay no heed to the reported agreement for Soviet forces to pull out 24 hours after the rebels disarm themselves.

U. S. Says Aid To Satellites May Be Slow

WASHINGTON (AP)—U. S. officials said today that Eastern European states trying to cast off Russian rule must be expected to go slow in seeking any American economic aid they need.

Secretary of State Dulles has declared the United States is ready to share its "abundance" with the Communist satellites as they gain independence. Without giving details, he said that this government "is actively concerned with the suffering" of the Hungarians and will do what it can to help them.

The State Department, anxious to exploit any cracks in the Soviet empire, has been working on plans for various kinds of assistance—financial, commercial, political and the like.

The weekend action of 11 United States, Britain and France in taking the case of Soviet military operations in Hungary to the United Nations Security Council represents a decision to give political aid.

But if Hungary is to secure independence from Soviet rule, if Poland is to anchor its own freedom of Russian domination firmly, each country will have to obtain outside economic aid.

U. S. officials, however, believe that Titoist type leaders in all the Eastern European countries want to maintain friendly relations with Russia, even though this means a slower attack on their rebuilding problems.

Murder-Suicide Is Death Verdict

DAYTON (AP)—The deaths Saturday of Kelly Paris, a 38-year-old painter, and his estranged wife Doris Catherine, 26, have been ruled murder and suicide by Coroner Dr. Robert E. Zipp.

Both were dead when police arrived about 3:30 p. m. at the two-room apartment where Mrs. Paris lived with their son David, 9. The couple had been separated about three months, although it was reported the husband was trying to effect a reconciliation.

The coroner said Mrs. Paris was shot three times in the chest. He said Paris shot himself in the heart.

Assault, Disturbance Charges before Court

Of the four charges of assault and disturbing the peace heard by Judge Max G. Dice in Municipal Court Monday morning, two were dismissed at the request of the complainants, one was continued for a jury trial and the other resulted in a fine for the defendant.

A charge of assault against Dolores Joseph was dismissed at the request of Doris Campbell, who filed the affidavit, after the defendant had pleaded not guilty.

A charge of disturbing the peace filed by Betty Morris against John W. Morris, 35, at the Morris home, 903 Forest St., was dismissed at the request of the plaintiff on payment of the costs.

Hearing of an assault charge filed against Albert Mathews by Homer Williams was continued until Nov. 6 after Mathews had entered a not guilty plea.

Kenneth E. Johnson, 27, of 504 Eastern Ave., was fined \$10 and costs on a charge of assault filed by Mary Johnson. The fine was suspended.

Cleveland Museum Slated To Close

CLEVELAND (AP)—Construction work on the Cleveland Art Museum's \$5½ million addition will close the entire museum for nine months beginning April 1, Director William M. Milliken says.

It will be the first time in 41 years that the museum has shut down for any extended time.

Milliken said the board of trustees decided to close the museum as a safety measure.

He said the museum will not operate on a parttime basis because its multi-million-dollar collections would be endangered and insurance would be prohibitive.

FAYETTE COUNTY SCHOOL FACTS NO. 5

DO YOU WANT THE TRUTH OR CONSEQUENCES

LITTLE KNOWN FACTS

Federal Aid for School Building is definitely coming! Do you want to pay 100% of the cost of a new building for Miami Trace and 50% of the building cost for a school in some other county also? You pay federal taxes—you should participate in their benefits—don't lose this aid by "jumping the gun" this year. Vote against the Miami Trace Bond Issue.

Do you know schools will cost Fayette County \$29,000,000.00 in the next twenty years or one-half the entire taxable wealth of Fayette County? We need the schools but can we afford to over-build?

If you were \$300,500.00 in debt, as Miami Trace is, would you go in debt for \$2,300,000 more if you were not absolutely certain it was needed? None of us can be certain without a qualified survey. There are over 400 empty seats in Miami Trace schools now. Do we need 900 more?

Do you know the responsibility for assignment of students rests with the county superintendent? That a concentrated assignment of students can overcrowd a school to the point where the people feel they must vote for more building while at the same time smaller schools can be left with so many vacant seats the people in that area can be sold on abandonment of their school?

If a 900 student high school is approved and filled to operating capacity, between 20 and 30 county classrooms will be vacated. How many of our present good schools which are built and paid for will be wastefully abandoned? Remember Conner, Yatesville, Cisco and Buena Vista?

before the county commissioners at Monday's session and asked for additional funds to help the commission meet some of its increased demands for aid to soldiers' families.

The commissioners were sympathetic toward the appeal but indicated that all the county's known income has been appropriated this

year. However, the commissioners said they would confer with the county budget commission, and if incoming tax payments exceed the estimated revenue this year an effort will be made to give the Soldiers Relief Commission an additional \$1,600 which the commission members feel would enable them to meet the most urgent immediate demands.

The commission is composed of

Howard Fogle, Selby Gerstner, Robert Olinger, Howard Burnett and Willard Matson. Bernard Witherspoon is the secretary. All were present except Burnett and Matson.

Other matters before the commissioners were strictly routine, including approval of bills.

Assault, Disturbance Charges before Court

Of the four charges of assault and disturbing the peace heard by Judge Max G. Dice in Municipal Court Monday morning, two were dismissed at the request of the complainants, one was continued for a jury trial and the other resulted in a fine for the defendant.

A charge of assault against Dolores Joseph was dismissed at the request of Doris Campbell, who filed the affidavit, after the defendant had pleaded not guilty.

A charge of disturbing the peace filed by Betty Morris against John W. Morris, 35, at the Morris home, 903 Forest St., was dismissed at the request of the plaintiff on payment of the costs.

Hearing of an assault charge filed against Albert Mathews by Homer Williams was continued until Nov. 6 after Mathews had entered a not guilty plea.

Kenneth E. Johnson, 27, of 504 Eastern Ave., was fined \$10 and costs on a charge of assault filed by Mary Johnson. The fine was suspended.

DiSalle Claims 51,625 Workers

TOLEDO (U)—Headquarters for Michael V. DiSalle, Democratic nominee for governor, says a total of 51,625 Ohioans are actively engaged in his campaign.

Listed among the groups that are of that total figure were:

"Mayors for Mike," which includes 220 mayors; Republicans for DiSalle, with about 1,500 members; the DiSalle for Governor Committee, more than 16,000; a business and professional men's group in Columbus numbering 3,500; a Letters-for-DiSalle Committee in Toledo; and a college - university group of more than 500 students and faculty members in 20 schools.

Cleveland Museum Slated To Close

CLEVELAND (U)—Construction work on the Cleveland Art Museum's \$5½ million addition will close the entire museum for nine months beginning April 1, Director William M. Milliken says.

It will be the first time in 41 years that the museum has shut down for any extended time.

Milliken said the board of trustees decided to close the museum as a safety measure.

He said the museum will not operate on a parttime basis because its multi-million-dollar collections would be endangered and insurance would be prohibitive.

One of the state Highway Patrol officers described the road blocks as "potential death traps" and said they could not be taken lightly.

A report that the street lights in Octa had been broken about midnight Sunday was attributed to the pre-Halloween celebration, but Sheriff Hays said he was going to make a more thorough investigation before he decided definitely on that.

FAYETTE COUNTY SCHOOL FACTS NO. 5

DO YOU WANT THE

TRUTH

OR

WILL YOU PAY THE

CONSEQUENCES

LITTLE KNOWN FACTS

Federal Aid for School Building is definitely coming! Do you want to pay 100% of the cost of a new building for Miami Trace and 50% of the building cost for a school in some other county also? You pay federal taxes—you should participate in their benefits—don't lose this aid by "jumping the gun" this year. Vote against the Miami Trace Bond Issue.

Do you know schools will cost Fayette County \$29,000,000.00 in the next twenty years or one-half the entire taxable wealth of Fayette County? We need the schools but can we afford to over-build?

If you were \$300,500.00 in debt, as Miami Trace is, would you go in debt for \$2,300,000 more if you were not absolutely certain it was needed? None of us can be certain without a qualified survey. There are over 400 empty seats in Miami Trace schools now. Do we need 900 more?

Do you know the responsibility for assignment of students rests with the county superintendent? That a concentrated assignment of students can overcrowd a school to the point where the people feel they must vote for more building while at the same time smaller schools can be left with so many vacant seats the people in that area can be sold on abandonment of their school?

If a 900 student high school is approved and filled to operating capacity, between 20 and 30 county classrooms will be vacated. How many of our present good schools which are built and paid for will be wastefully abandoned? Remember Conner, Yatesville, Cisco and Buena Vista?

before the county commissioners at Monday's session and asked for additional funds to help the commission meet some of its increased demands for aid to soldiers' families.

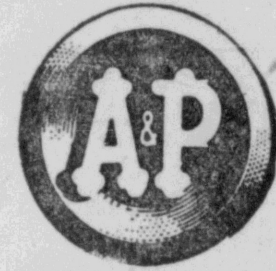

The commissioners were sympathetic toward the appeal but indicated that all the county's known income has been appropriated this

year. However, the commissioners said they would confer with the county budget commission, and if incoming tax payments exceed the estimated revenue this year an effort will be made to give the Soldiers Relief Commission an additional \$1,600 which the commission members feel would enable them to meet the most urgent immediate demands.

The commission is composed of

Howard Fogle, Selby Gerstner, Robert Olinger, Howard Burnett and Willard Matson. Bernard Witherspoon is the secretary. All were present except Burnett and Matson.

Other matters before the commissioners were strictly routine, including approval of bills.

Ohioana Library Assn. Will Honor Authors

Mrs. Frank J. Mayo, Fayette County chairman of the Ohioana Library Assn., and Mrs. J. Earl Gidding, a trustee, will attend the association's 27th annual meeting and luncheon in Columbus next Saturday.

Two native Ohioans and one Ohioan-by-adoption are to receive Ohioana awards for the best books in the fields of fiction, non-fiction and juvenile writing.

The announcement of the selection of Miss Jo Sinclair, Cleveland, for her novel, "The Changlings"; John F. Cady, an Indian who has lived in Ohio for many years, for his "The Roots of French Imperialism in Eastern Asia"; and James Flora of Bellefontaine, for his juvenile book, "The Fabulous Firework Family," has been announced by Dr. Walter Rumsey Marvin, executive director of the association.

Two other Ohioans are to receive citations for distinguished service to Ohio. Dr. James E. Pollard, director of the School of Journalism at Ohio State University, is to be honored for his biography of William O'Leary Thompson, president of Ohio State University from 1899-1925, and J. Dudley Chamberlain, Columbus Citizen columnist, is to be honored for his writings promoting state and local pride.

The awards are to be presented at the author-composer luncheon at the Neil House.

France Signs Pact To Give Away Saar

LUXEMBOURG (AP)—France and West Germany signed a treaty here Saturday restoring the rich Saar Valley to German control.

The signers were Foreign Minister Christian Pineau of France and Heinrich Von Brentano of West Germany. They also endorsed a score of related agreements and said "the last problems standing between the two countries" now had been settled.

Under the treaty, which must be ratified by the Parliaments of both nations, the Saarland will revert to German political control next Jan. 1 and will come completely under German sovereignty, as West Germany's 10th state, on Dec. 31, 1959.

In the intervening three years of transition, France will keep certain financial and economic rights in the territory. It has had the Saar since 1945.

The region covers only 991 square miles, about half the size of New York's Long Island, but it is one of Europe's most thickly populated and highly industrialized localities, crowded between Germany, Luxembourg and France.

Under its rolling hills are 10 billion tons of coal — enough to keep its miners busy for more than 500 years. Saar mines produce more than 17 million tons of coal and Saar mills 3 million tons of crude steel yearly. Manufactures, include steam engines, pumps, transport equipment, machine tools and mining and farm machinery.

The new agreements provide that:

1. France is guaranteed a supply of 90 million tons of Saar coal in the next 25 years.
2. The two countries will make the Moselle River into an inter-

national canal linking France's industrial Lorraine with the Rhine River in Germany. The canal will cost an estimated 370 million German marks (\$97,875,000). Germany will pay about a third of this.

3. Germany will take over the Saar railroads and postal service in the three-year transition period. Goods meanwhile will pass freely between the Saar and Germany.

4. On a day still to be fixed, Saarlanders will turn in the 40 billion French francs (116 million dollars) now circulating in the territory and get back German marks at the official rate. The francs will revert to France without compensation.

The Saar, whose people speak German, has been the object of a tug-of-war between the French and Germans for generations. Napoleon took it and then, in 1815, lost it to Prussia. France reclaimed it in 1918. But then it was detached from Germany and put under the League of Nations 15 years. In 1935, Saarlanders voted 9-1 to return to Hitler's Reich.

In World War II the United States occupied the Saar and turned it over to the French military government. France incorporated it into her economic system. But agitation for return of the territory grew both in West Germany and in the Saar itself.

So France and Germany, on Oct. 23, 1954, agreed on a new status for the territory. It was to be "European," run by a neutral commissioner under the seven-nation Western European Union, while the French retained their recon-ic interests there.

The Saarlanders voted down this plan, 2-1, Oct. 23, 1955. The pro-French Saar government resigned, and in December a pro-

German government was elected.

Last Sept. 29, French Premier Guy Mollet and German Chancellor Konrad Adenauer agreed in Bonn on the setup provided in the documents signed today.

Argentine Chief Plans Dictator Ban

BUENOS AIRES (AP)—Provisional President Pedro Aramburu says his government plans to overhaul Argentina's constitution to bar the possibility of any more dictators.

Aramburu said his regime will call a constituent assembly to reform the constitution in advance of the 1957 election—first since Juan D. Peron was thrown out as dictator-president.

Today's Hallowe'en Activities Less Harmful

Well, once again Halloween is upon us and most Fayette County youngsters probably are planning to have their full share in the fun like others throughout the land.

As a general proposition, we believe the boys and girls in the teen age group and younger do a better job of having fun without creating serious damage than was the case many years ago.

History fails to record the date when Halloween, the night before All Saints Day, became dedicated to fun and frivolity. Why the evening was presumed to give license to young and old alike to indulge in pranks not considered permissible at any other time can be attributed only to custom. It has come down through the generations, unauthorized and without benefit of birth certificate.

Grandfather took the event seriously. He counted the evening lost unless he upsets his share of outbuildings, perhaps helped put the school teacher's cow in the church belfry, and otherwise made his presence in the community felt. It was his opportunity to get even with any in the

neighborhood who had been unfriendly or critical during the previous months, but often sparing the property of those who had shown him kindness and understanding.

The modern generation has gone in for other things. The young fry attends parties, often community affairs, conducted for their especial benefit. For the most part the modern youngster is not destructive, merely mischievous. And he seems to have just as much fun on Halloween as did his grandfather, who was something of a rascal, at least to hear him tell it.

Part of this improvement in modern days probably is due to cities and rural communities arranging programs, such as parades and awards for unique costumes or other get-together events, which took the young people into consideration and let them share in the fun.

While police officials have to keep a sharp lookout each Halloween, there is less serious trouble usually reported than a few decades ago. And that is all to the good.

Million Spent at Breakfast

NEW YORK (AP)—Everyone has heard of the three-hour business luncheon, but some tycoons now are going in for two-hour business breakfasts.

One of them is William Zeckendorf, head of a real estate firm which hires 70 architects and now has on its drafting boards building projects valued at \$1 billion.

To keep tab on his sprawling enterprises in the United States and Canada, Zeckendorf summons his executives once a week to a breakfast conference in the firm's Madison Avenue penthouse office.

I attended one of these unusual sessions recently, and here's how it went:

Zeckendorf, a tank-sized man, and a dozen or so of his top aides briskly waded through platters of ham and eggs and steaming cups of coffee. The aides had pads of yellow paper and sharpened pencils before them. Zeckendorf had a silver bell and an ivory telephone.

After a little desultory talk on politics (Zeckendorf wasn't sure Eisenhower was "the right President for me" unless he

pitched into the campaign a little harder), the conference got down to business.

Then, 37 minutes late, in came Billy Rose, Broadway showman and entertainment consultant to the firm, looking a bit like an owl reared on noon.

There were a dozen matters on the agenda, but only one came up, that was the question of building an ice rink at Roosevelt Field, a new \$50 million shopping center on Long Island.

The fur began to fly at once. Herb Silverman, young president of the center (Zeckendorf is board chairman), was lukewarm toward the whole idea of an ice rink in a shopping center. At best he wanted a simple outdoor rink that would cost only \$250,000.

Rose wanted to enclose the rink, put in concession booths, a restaurant, and finally a bowling alley.

"A lame brain idea," said Silverman, who thought the area could be put to better uses.

"I have never been so put-upon, frustrated and humiliated in my whole life," bellowed Rose.

"There are no personalities in this," rumbled Zeckendorf. "Nobody is to get his feelings hurt."

By Hal Boyle

After it turned out Rose's plan for an amusement area would cost more than \$1 million, Zeckendorf said:

"I don't want to poor boy this. To do less than the ultimate is to do nothing—to ruin your reputation."

The quarrel between Rose and Silverman went on for more than an hour, each arguing vehemently as Zeckendorf appeared to back first one, then the other.

The waiter passed around a box of 60-cent cigars. I took one. By then Zeckendorf had decided Rose and Silverman should go ahead with Rose's plan. He also endorsed the suggestion to add a double-deck parking lot.

As I left I remarked to an executive that I had never before seen \$1 million spent over a breakfast.

"Oh," he said, "you only saw the first round. This will come up at least half a dozen more times before we really decide what we'll do."

The one sure thing about the breakfast business conference seems to be this: It gives tycoons a chance to get their ulcers activated earlier in the day.

Is The Soviet Falling Apart?

What is put together by force, can only be held together by force, is a political truism that has been proving itself more and more as empires disintegrate.

Soviet Russia faces this problem in the apparent tendency not only of the satellites but of the world Communist parties to declare their independence of and equality with the Kremlin.

It is not as significant that the Polish communist party has staged a Titoist revolution but that Mao Tse-Tung of China and the American Communist party congratulated the Poles.

It means that the earliest days of the third international, when each national communist party was equal, are reappearing. This could not have happened when Stalin was alive because he would have had everyone associated with the Poznan insurrection and the Titoist rebellion in Poland either sent to Siberia or killed.

Stalin once had Ben Gitlow and Jay Lovestone, when they were leaders of the American Communist party, imprisoned in Russia because they disagreed with him. Nationality meant nothing to Stalin; loyalty had to be to him personally. Thus Gomulka, who now heads the Polish Communist party, spent more than three years in prison because Stalin wanted it so. Stalin had the daring and courage to expel Tito from the cominform as an act of excommunication.

Khrushchev is not made of the same stuff; or perhaps the times have changed and the grandchildren of the original Bolsheviks will not tolerate the oppressions which Stalin caused them to believe were essential to the success of the revolution.

After all, Khrushchev is telling them that the revolution has already succeeded, for is not the Soviet Union the second if not the first power on earth? Does not its territory and the territories of its satellites and allies extend beyond the maddest dreams of even mad czars? Is it necessary to make the same kind of sacrifices at a time of great success that were made during the days of austerity and fear? Or is the story of the enormous success a myth — and if so, how many

more generations must live in austerity and fear?

These are the arguments that Khrushchev and his associates have to face. But there is one that is even harder to answer than all these.

And that is: Look at Tito! He practices a nationalist independence that not only brought him a billion dollars of American aid but the groveling at his feet of Khrushchev and Bulganin. Tito is so independent of the Kremlin that it is being feared there that he is preparing to become the head of international communist headquarters from the Kremlin to Belgrade.

Surely, it is the tail wagging the dog. But success always has imitators and Tito has been successful.

Although Poland has a long and honorable history of nationalistic unity, it is not true of Yugoslavia which is a conglomeration of Serbs, Croats, Slovenes, Italians and other minorities. Nevertheless, Tito has been able to establish the principle of nationalism even more effectively than he has the principle of communism. To a homogeneous country like Poland, the Yugoslav example must have acted as a spur and the presence in the Polish government of Marshal Rokossovsky as an unforgivable insult.

Poland has been partitioned

By George Sokolsky

four times, but Polish nationalism has never been deadened and Polish history is the story of the heroic effort of these people ever to reconstitute themselves an independent nation. Gomulka, the Communist, is raising anew the standard of Polish nationalism. For his idea, Poles are ready to die.

There is this other point to make: Poland is a Roman Catholic country, perhaps next to Spain, the most Roman Catholic of all countries. The principal intellectual leaders of Poland have often been priests. Such deep acceptance of a religion cannot be washed away in a few years.

Even the murder of priests and nuns and the elimination of Polish intellectuals cannot quite alter the thinking and feeling of this people. It will be found that in the next few months, this religious force will be a factor in Polish affairs.

The history of empire is that it can only be held together as long as force, fear and murder hold it together; when the hand at the center falters, the areas on the periphery of empire fall away. Apparently that is what is beginning to happen to the Soviet Universal State.

Diet and Health

By HERMAN N. BUNDESEN

Cereals and other common foods used in the manufacture of liquor may be to blame, at least in part, for alcoholism.

This is the unique view of Dr. Theron G. Randolph, a Chicago internist and allergist, who has conducted a seven-year study of problem drinking.

He says that all alcoholic beverages carry the active principles of the constituent foods from which they are derived. In other words, if you are sensitive to one of the foods used in making alcohol, you might possibly become addicted to alcohol.

Dietary Items

It's easy to determine whether you are sensitive to a particular food which you consume only occasionally. But if your trouble comes from wheat, corn, coffee or other common dietary items which you eat almost every day, it is a more difficult task to put your finger on the offender. Often the effects of such foods are hidden ones.

Dr. Randolph calls this a adaptation to everyday foods "food addiction."

In addictive eating and drinking, he explains, you simply take what you like as often as you desire. After each off-repeated dose, you are picked up. Later,

Addition to Food Could Spell Trouble

a delayed reaction lets you down. These delayed effects or hangovers actually are relieved immediately by consuming more of the specific food or drink, he says.

If you are addicted to a common food, the allergist explains, you tend to like or even crave the actual cause of your chronic illness. You take it, or mixtures containing it, as often as necessary to maintain the immediate lift that it provides.

Incriminated Foods

Dr. Randolph suggests that a diet which completely avoids incriminated foods will materially reduce the craving for frequent eating in cases of obesity and frequent drinking in alcoholism.

This food addiction, it seems, is something like drug addiction except that, in the latter, the addict knows he's hooked.

The food addict, Dr. Randolph says, usually is not aware of the similar action of the food.

Round about Fayette County

By B. E. KELLEY

There is gas under Washington C. H.!

A small flow of gas was found when the first well was drilled for gas and oil here some 75 years ago. Information about this particular well has long been overlooked!

Lewis Clark Coffman property on Sycamore St., on what is now the Lofen Hynes property. It was located 45 feet east of the sidewalk on Sycamore St., 20 feet south of the Coffman Stair Co. dry kiln, and 35 feet north of the building erected by Sam Evans as a veneer plant, now occupied by Loren Hynes and Son with their farm machinery business.

The well was drilled some 20 to 25 years before the next well in the county was drilled back of the old Washington Ice Co. plant, on W Temple St., and the one within a few rods of Paint Creek at the west end of "Lost Bridge Road" on the property of the Ohio Water Service Co. These were followed by one near Buena Vista, one on the Leesburg road near Rattlesnake Creek, another on the Heglar land on the Chillicothe road, and, many years later, one on the Ford land west of South Plymouth.

Lewis Clark Coffman, lumber dealer, and Henry Hildebrandt, former bookstore proprietor here, as well as a number of other local men were interested in the first venture for gas and oil and L. C. Coffman, N. North St., and Miss Alberta Coffman, East St., son and daughter of the Coffmans recall seeing the derrick erected.

L. C. Coffman and Howard Hammer recall that for years after the well was plugged, they applied matches to the end of a pipe from which water flowed to a stone watering trough in Sycamore St., and the escaping gas would flare up.

The well was drilled to a depth

of 1800 feet, but I have no record of whether it was shot, or just abandoned as not producing either gas or oil in paying quantities.

RESERVOIR DOWN SIX FEET

At the present time the 200 million gallon storage reservoir which supplies Washington C. H. with water, is down some six feet below the previous level, due to constant use from the reservoir for two months without replenishing the supply from the creek. There are still many months supply in reserve.

The creek got so low that no water has been taken from it for two months, and the city's entire supply has been coming from the reservoir proper.

As soon as the creek starts flowing and the water clears, work of pumping the soft water into the reservoir will be resumed.

MUCH NEW BALLAST

I note that the Baltimore & Ohio Railroad is applying a large amount of crushed stone ballast on the road from the city southeastward, and Roy Newland, B&O agent here, informs me that the new ballast will be applied as far as Musselman, in Ross County, where the local branch intersects with the main line of the B&O.

So far, between 60 and 80 carloads of ballast have been spread so that the road is now freshly ballasted for some distance beyond the Bogus road, and the work will be continued as weather permits. Most of the ballast is coming from the Hamilton area.

The former C. H. & D. Railroad is increasing in importance and is hauling more and more coal, iron ore, and freight generally, so the reballasting is part of a general improvement of the road now underway.

Huge quantities of coal are being

moved northward over the line, and trainloads of iron ore are being shipped from Toledo, where it is brought by boat from Duluth, Minn., to steel mills in Jackson and Portsmouth.

JUST AN OVERSIGHT

Many of you remember Os Briggs the livestock buyer, who at one time probably bought and shipped more hogs, cattle and sheep than any other livestock dealer of his day.

One day I was talking with Os about a large shipment of livestock he had made, and he reached into an inside pocket to obtain some data on the shipment.

As he leafed through several papers taken from his pocket, he suddenly exclaimed:

"Here's a check I had forgotten I had, and I'd better be banking it for I've been carrying it around for more than two months."

He showed me the check. It was for \$3,500.

Democrat Gain In Alaskan Poll

JUNEAU, Alaska (AP)—The counting of absentee ballots cast in Alaska's Oct. 9 election has been completed. The final tally gave the Democrats one more seat in the territorial House of Representatives—and a total of 21. The Republicans won 3 seats.

The Republicans won 5 territorial Senate seats to 4 for the Democrats, but the Democrats will have control of the Senate by virtue of 7 holdover seats.

4 Pike Countians Die in Home Fire

WAVERLY (AP)—Four persons burned to death Saturday in a three-room frame house in an isolated area in Pike County.

A father, his two small sons and a family friend died in the fire. The house was destroyed.

The sheriff's office listed the names of the victims as Rex Lawson, 35; his son Rex Jr., 7, another son, Steven, 2, and the family friend, Ralph Perkins, 50, who had been staying at the Lawson home. Authorities said cause of the fire had not been determined officially, but that it might have originated in a bottle-gas kitchen stove.

CINCINNATI (AP)—Dr. Louis N. Katz of Chicago has received the American Heart Assn.'s 1956 Albert Lasker award for "distinguished achievement in the field of cardiovascular research."

The Lasker award was conferred on Dr. Katz by Dr. Edgar V. Allen, Rochester, Minn., president-elect of the American Heart Assn., which is holding its annual meeting here.

Dr. Katz received his medical degree at Western Reserve University, Cleveland, in 1921.

Neighbor's Fight Ends with Death

CLEVELAND (AP)—Elmer Santo, 32, of Cleveland was dead and his neighbor Louis J. Capasso, 24, was held in jail today. Police said a partial investigation showed the two had argued for two years over a common driveway, and that when they got into a fight Sunday Santo was slugged to death.

Capasso was held for investigation in connection with assault.

Safe Water Supply Emphasized

The importance of every family in Fayette County of being certain of a safe and adequate water supply is emphasized by the Fayette County Health Department.

"Without water, food cannot be produced, animals will not grow and life cannot exist. It can be clean and safe for you to use, or it can bring illness to your family," the Health Department says.

"No matter what else may be lacking, adequate water and the manner by which you obtain it are of the first importance to you in providing for the future health, happiness and security of your family."

"Many people living on the outskirts of municipalities and in the country must obtain their water from private wells."

"The proper location and construction of such wells are highly important in providing safe water. Remember that some localities may present special problems in well construction or location."

The statement concluded with this advice: "Consult your local Health Department for complete information before making final plans for your well."

Hungarian Demonstrators Asking U. S. Military Aid

NEW YORK (AP)—A New York Post correspondent in Budapest has reported that Hungarian demonstrators there were asking for American military help.

Correspondent Seymour Freidin, in a dispatch from the Hungarian capital, said the revolt had turned into a "massacre of the innocents" with Soviet troops shooting down unarmed men and women.

"In their days and nights of anguish, Hungarians have turned to massing before the American legation," he wrote. "Yesterday they demanded: 'We want American troops, not propaganda leaflets.'"

"They know they won't get American troops. But it seems to help them to ask. It's an expression of defiance."

Freidin said Soviet T34 tanks blocked every important street and choked every bridge in Budapest, and Russian heavy guns were mounted on the east bank of the Danube. In parliament square Thursday, he declared, Hungarians were mowed down "like stalks of wheat."

"Just as Russian troops, more than 100 years ago, suppressed a revolution in Hungary," he went on, "so are Russians trying the same tactics today by brute strength and massive fire power."

"They have blasted workers' apartments, shelled entire districts and plunged the city into a poorly lit village of rubble over which a blanket of mist descends from the Danube."

"Yet thousands make their way to demonstrations, undeterred by

gun muzzles thrust in their faces. They are demanding 'independence,' withdrawal of Russians forever and the opportunity to settle their own home affairs."

"Nobody knows how many have perished. Hospitals are filled to bursting."

Jean Whiteside Is Honored at Birthday Party

Mr. and Mrs. Clayton Whiteside entertained at a party at the Book-walter Township Hall, honoring the eighth birthday of their daughter Jean, and included a large group of her small friends.

The hall throughout was decorated in a gay Halloween theme and the guests all arrived in masks and costumes and awards were presented to Dale Wilson and Faye Whiteside for the most unusual and little Miss Theresa Ortleib of Columbus, dressed as a bride was also admired.

Games were also enjoyed and prizes went to Carl Harlen and Eddie McBee.

The small honor guest opened her beautiful array of gifts at a decorated table and responded sweetly.

Refreshments of cake, ice cream and punch, further suggesting the Halloween theme were served and favors were presented to each guest.

The invited guest list included: Mike Belles, Wesley Neal, Kathy Pierce, Linda and Jane Martindale, Bobbie, Jackie and Roger Baughn, Jim Hidy, Ronald and Beverly Lansing, Dale Coil, Linda and Barbara Berry, Carol Sue Spears, Carl and Harold Harlen, Dick, Ronnie and Sharon West, Shirley Wilson, Clarabelle Wilson, Dale Wilson, Tommy, Faye and Mildred Whiteside, Eddie, Terry and Gary McBee, all of the Book-walter community.

Homeless Bees 'Camp Out'; Produce Honey in Oak Tree

THE HOUSING PROBLEM has hit the honeybees. A swarm attached several large layers of comb to a limb of an oak tree and filled it with honey, on the Robert H. Green farm on the Robinson road, a few miles east of here. The mass of honeycomb, covered with bees, is shown above.

By B. E. KELLEY
This is a sweet story with a sad ending.

Apparently it has all come about by the shortage of houses for bees, particularly if the swarm has left the hive late in the season, and the new queen was somewhat confused when she started forth in the big world looking for a home for her brood, and finding none.

Hanging to a sizeable limb in an oak tree on the Robert H. Green farm, occupied by Mr. and Mrs. Thomas Craig, on the Robinson road, is a large formation of honeycomb, about 10-by-10-by-8-inches, covered with bees.

The comb apparently is filled with honey, sealed over, and there are four separate combs to the mass attached to the limb.

As I examined the swarm and their unprotected store of honey,

at close range, a few inquiring bees dropped down to investigate and buzz threateningly as a warning against approaching nearer.

Building their honeycomb and filling it with honey, out in the open, is a thing almost unheard of.

Two or three years ago, a swarm of bees alighted in a maple tree on the Courthouse lawn, and remained two or three weeks, building a formation of honeycomb three inches across. Before leaving, the bees consumed all of the honey and left the comb empty.

'Stress' of Living Said Over-Stressed

CINCINNATI (U)—Americans are inclined to over-stress the "stress" of modern-day living, a heart specialist says. "Yet I daresay if you had been about to have your scalp taken off by an Indian there would have been a fair amount of stress involved—and, building the pyramids must have been a somewhat stressful situation."

The earliest election specified was that of John Winthrop as governor of Massachusetts, May 18, 1631.

Iron Lung Captive Takes His Own Life

WICHITA, Kan. (P)—Eugene Wolcott, confined to an iron lung except for brief periods, was found shot to death Sunday, clutching a rifle.

He had slipped out of the respirator while alone, obtained the weapon and gone into the yard.

Floyd Smith, acting coroner, said the wound beneath Wolcott's chin was self-inflicted and caused death instantly.

The 34-year-old electrician had been under treatment for a paralyzing muscular disease and doc-

tors said he would have to spend the remainder of his life in a respirator.

A Paris highwayman was the first one to die by the guillotine. He was beheaded on April 25, 1792.

A low-slung beauty with Flight-Sweep style: Swept-Wing '57 Dodge Custom Royal Lancer 2-Door.

It unleashes a hurricane of power
It breaks through the vibration barrier
It is swept-wing mastery of motion

SWEPT-WING '57 Dodge

How do you describe a car so daring in concept, so revolutionary in features and advances, so rewarding in beauty and performance?

How do you explain its newness when everything about it is new?

On display today is just such a car—the Swept-Wing '57 Dodge that steps you into the wonderful world of Autodynamics.

What is this wonderful world of Autodynamics? It is a world where everything is new from road to roof to achieve absolute mastery of motion.

Here's what it does in the Swept-Wing Dodge:

- It unleashes a hurricane of power from a thundering new aircraft-type Super Red Ram V-8 engine that's a spitfire in action!
- It tames a tornado of torque with a new TorqueFlite Push-Button Drive for the greatest get-away on the road!

- It breaks through the vibration barrier with a revolutionary new rubber-mounted suspension system—Dodge Torsion-Aire—that features race car torsion-bars. You ride in a "Realm of Silence," isolated from vibration, noise and road shock.
- It is swept-wing mastery of motion in a sleek, low-slung beauty barely 4 1/2 feet high that has no equal in the way it corners, handles and rides.

You have never seen, felt or owned any car that compared with this new Swept-Wing Dodge. See and drive it today . . . now at your Dodge dealer's!

SWEPT-WING '57 Dodge

How do you describe a car so daring in concept, so revolutionary in features and advances, so rewarding in beauty and performance?

How do you explain its newness when everything about it is new?

On display today is just such a car—the Swept-Wing '57 Dodge that steps you into the wonderful world of Autodynamics.

What is this wonderful world of Autodynamics? It is a world where everything is new from road to roof to achieve absolute mastery of motion.

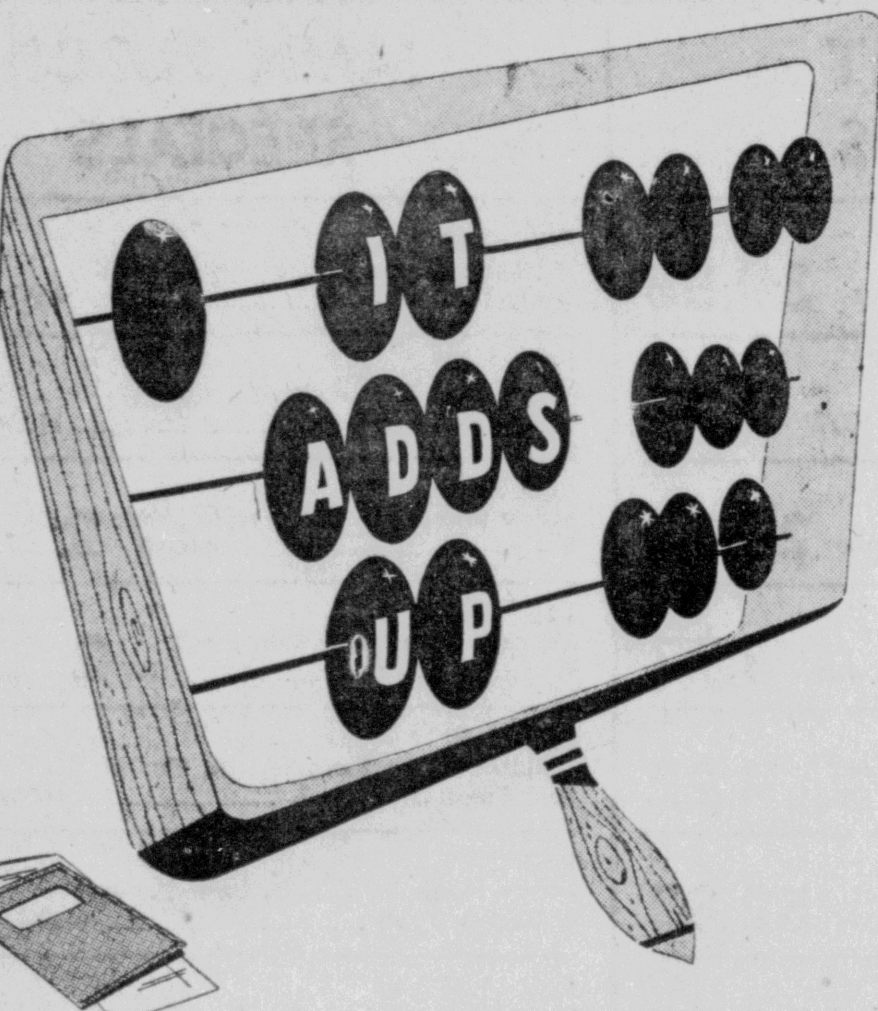

Here's what it does in the Swept-Wing Dodge:

- It unleashes a hurricane of power from a thundering new aircraft-type Super Red Ram V-8 engine that's a spitfire in action!
- It tames a tornado of torque with a new TorqueFlite Push-Button Drive for the greatest get-away on the road!

- It breaks through the vibration barrier with a revolutionary new rubber-mounted suspension system—Dodge Torsion-Aire—that features race car torsion-bars. You ride in a "Realm of Silence," isolated from vibration, noise and road shock.
- It is swept-wing mastery of motion in a sleek, low-slung beauty barely 4 1/2 feet high that has no equal in the way it corners, handles and rides.

You have never seen, felt or owned any car that compared with this new Swept-Wing Dodge. See and drive it today . . . now at your Dodge dealer's!

Detroit Stands Alone Atop Pro Grid Heap

Lions Only Undefeated Team: Cardinals Fall Before Redskin Outfit

By THE ASSOCIATED PRESS
The Detroit Lions, never a real pro grid power until the 1950's, remained the National Football League's only unbeaten team today, despite classy performances Sunday from the NFL's "Old Guard."

While the Lions continued to rule the Western Conference with a 16-7 away triumph over the Los Angeles Rams, three teams that took turns ruling the loop more than a decade ago crashed through with major victories.

Washington's injury-marred Redskins knocked off the previously undefeated Cardinals, 17-14 at Chicago; the New York Giants took advantage of the Cards' loss and jumped into a first-place Eastern Division tie by thumping the Philadelphia Eagles, 20-3, and the Chicago Bears stayed right behind the Lions in the West with a 38-21 decision over San Francisco on the coast.

In battles of lesser import, the Baltimore Colts tied the Green Bay Packers for third spot in the West by whipping the Packers 28-21, and Pittsburgh's Steelers rebounded from a mid-week tongue-lashing by their coach, rallying for a 24-16 win over Cleveland's once-awesome Browns, now in last place in the East.

The dazzling Texan, Bobby Layne, was practically the whole show for the Lions. He kicked two field goals for a 6-0 halftime lead, and engineered a 57-yard TD drive in the third quarter which he iced with a conversion. Jim Martin contributed the other three Lion points with a 43-yard fielder. The Cards blew a 14-0 first-quarter lead built on drives of 73 and 65 yards. Washington's Sam Baker kicked a 22-yard field goal in the second quarter, and the Skins capitalized on a roughing the passer penalty and a fumble in the second half to set up two payoff passes by quarterback Al Dorow.

The Bears went all the way to the Golden Gate, and it's highly likely coast fans will give it to Rick Casares if he doesn't come to town again. The young Bear fullback tallied four times on short yardage to run his season TD total to 10. Rookie signal caller Earl Morrall moved the 49ers to two second-period scores, but the losers couldn't keep up with

Lions Start Work For Hilliards Game

Coach Fred Domenech, cheered by the Blue Lions' sharp play against Columbus Eastmoor Friday night, was optimistic today as his team prepared for this week's game against Hilliards at Gardner Park. "But," he warned cautiously, "There will be no let-up."

"I was pleased with Friday's showing, particularly the second half," the coach said. "The boys finally looked like they wanted to play football."

The extent of injuries to the team is not yet known. Ronnie Carter, Kenny Evans and Roger McLean all were suffering from assorted bruises at the end of the Eastmoor game. The coach feels he will need as many able-bodied players as he can get when the Blue Lions go up against high-scoring Hilliards. Hilliards has a 4-2 record and a line averaging five to ten pounds more than Washington's.

THE LIONS will start a full schedule of practice today.

For their play in the Eastmoor game Eldon Brown, Ronnie Carter, Bob Huff and Jim Wilson were sent to see Ohio State down Wisconsin, 21-0, Saturday.

The rest of the team went to Wilmington as guests of the college to see Wilmington beat Ohio Northern.

The Washington Reserves play

the all-around Bear power

The Giants threw up a solid defense to hold the Eagles to a 15-yard, first-period field goal by Bobby Walston. With that out of the way, the Giants struck for touchdowns by Alex Webster and Frank Gifford and two three-pointers by Ben Agajanian.

Coach Walt Kiesling called his Steelers "lackadaisical" the other day, and that they may have been for one period as the Browns grabbed a 13-0 lead. But then Steeler quarterback Ted Marchibroda took over and a 21-point second quarter made the difference.

Newcomer Lenny Moore went 72 and 79 yards for scores as the Colts edged the Packers. Tobin Rote tossed for two Green Bay tallies and carried for the other. John Unitas, subbing for injured quarterback George Shaw, passed for the other Baltimore six-pointers.

Herman (Rory) Calhoun of McDonough, Ga., is the seventh of 11 children. His father is a Georgia minister-tenant farmer.

Mississippi football coach John Vought coached the Ole Miss line in 1946 and the next year he became head coach.

Xenia Central Reserves at 4:15 Monday at Gardner Park.

At the same time, the varsity will be working out on the practice field, trying not to lose that "something extra" they had in the second half Friday night.

Miami-BG Tilt Saturday To Top Ohio Card

COLUMBUS (AP)—Mid-America League play next weekend sends defending champion Miami against Bowling Green on the latter's field. Each has won four in a row in league play and other loop members have been beaten at least twice. Last year, the same situation prevailed with Miami topping the Bee-Gees by 7-0.

Bowling Green beat Marshall 34-12, and Miami triumphed 14-0 over Kent State in weekend games to set the stage for their climactic contest. In other big games, Denison halted Muskingum's 14-game winning streak by 23-7, knocking the defending Ohio Conference champions from the top of that loop; Bluffton stopped Findlay's Oilers 34-14 to assume the undisputed lead in the Mid-Ohio loop, and Wayne handed Western Reserve its first defeat, 10-7, to stay atop the new Presidents' Conference.

With Muskingum, Findlay and Western Reserve falling for the first time, only Bowling Green, Bluffton and Heidelberg of the state's 35 teams still boast clean records. Heidelberg has six straight, the Bee-Gees and Beavers seven. John Carroll is unbeaten, but was tied once in four starts.

Youngstown, Ohio University, Ohio Wesleyan and Western Reserve bowed to out-of-state teams, but Ohio State, Bowling Green, Central State and Cincinnati triumphed to give the Bucks a weekend even break in interstate play. For the campaign the Ohioans have won 34, lost 31, tied 2 and outscored the outsiders 1076 to 1006.

Browns Sink Even Lower In Loop Play

CLEVELAND (AP)—The pro football season won't be half over until the coming weekend, but the defending champions, the Cleveland Browns, already are almost certain to miss the championship playoff for the first time in their 11-year history.

A 24-16 loss to Pittsburgh's Steelers before 50,358 fans here Sunday crumbled what dim hopes the Browns had retained up to then. Cleveland's only victory in five games was by 14-10 over the Steelers at Pittsburgh.

Now in last place in the Eastern Conference, the Browns have only 55 points to show for five games, the lowest offensive total in the league. With seven games remaining, they trail the Chicago Cards and New York Giants by three full games.

"Every mistake we made went against us," Coach Paul Brown said after Sunday's loss.

The mistakes included a blocked field goal and two pass interceptions. These gave the Steelers possession of the ball which they maintained until they scored in each case. Another interception spoiled a Browns' bid in the third period, when they had first down on Pittsburgh's 37. And a fumble by Skeets Quinlan in trying to place the ball for Cleveland's first point - after a touchdown "really hurt," Brown said, explaining:

"In this game, a touchdown isn't worth much if you don't get the extra point."

On what Coach Brown called "the big play of the game," two minutes before the half, defensive halfback Don Paul missed a signal, and Lowell Perry got behind him to take a pass from Ted Marchibroda for a touchdown play that covered 75 yards.

Syracuse Shining In Pro Cage Play

NEW YORK (AP)—Take the right amount of veteran basketball players, sprinkle generously with some top-flight rookies and the product is a championship threat in the National Basketball Assn. with the Syracuse brand name.

The Nationals, who forged into third place in the Eastern Division only by virtue of a playoff last year, have applied this potent formula in two games this season. Sunday night they overwhelmed the Rochester club 91-75.

While the Nats were parading their new found prowess, the strong Fort Wayne Pistons secured a 94-88 victory over the Minneapolis Lakers.

Hungary Claims Team Withdrawn

LONDON (AP)—The status of Hungary, which has produced some of the greatest distance runners the world has known, in the Olympic Games was still clouded today although Radio Budapest announced the team was being withdrawn.

Efforts to reach Olympic officials in revolution-torn Budapest have been unavailing, and authorities here were not quite certain whether to believe Budapest.

The broadcast, monitored here, said the entire team had been withdrawn because training was "interrupted" by the revolt.

Unbeaten List Is Shaved to 35

CHICAGO (AP)—Led by the surprise demise of Michigan State, which lost to Illinois Saturday, the list of the nation's unbeaten, untied college football teams fell to 35.

Most of the major unbeaten group have won five games, but some of the smaller colleges have already compiled six and seven came all-winning records. Major colleges with perfect records include second-ranked Oklahoma, Tennessee, Princeton, Georgia Tech and Iowa.

Light Heavy Ring Schedule Altered

NEW YORK (AP)—Plans for a light heavyweight elimination tournament to provide a successor for Archie Moore have been set back by an injury to Willie Hoepner, German import. Hoepner was to have fought Chuck Spieser of Detroit Wednesday.

The International Boxing Club had to scramble its schedule to fill the date, moving up the Joe Mice-Carlo Sarlo match from Nov. 7. Hoepner's U. S. debut will be rescheduled when he is mended.

The first light heavy elimination scrap now will be Tony Anthony-Gordon Wallace at Madison Square Garden, Dec. 7.

The state of Florida reaped \$14,462,673 from horse racing in 1956. Of that amount \$6,364,852 was paid by Hialeah.

10 Bowl Contests Given NCAA Nod

KANSAS CITY (AP)—The National Collegiate Athletic Assn. announced today its approval of 10 post-season football games.

The extra events committee of NCAA said the following have met its regulations for bowl contests late this year or on Jan. 1:

Corn, Bloomington, Ill., Nov. 22;

Cotton, Dallas, Jan. 1; Gator,

Jacksonville, Fla., Dec. 29; Orange, Miami, Fla., Jan. 1; Prairie View, Prairie View, Tex., Jan. 1; Refrigerator, Evansville, Ind., Dec. 2; Rose, Pasadena, Calif., Jan. 1; Sugar, New Orleans, Jan. 1; Sun, El Paso, Tex., Dec. 31 or Jan. 1; Tangerine, Orlando, Fla., Jan. 1.

U. S. Weight Lift Team "All Ready"

SAN JOSE, Calif. (AP)—Uncle Sam's weight lifting team, called by its coach "the strongest we've ever had," is confident of defeating Russia in the Olympic Games at Melbourne next month.

"Nobody beats the Russians or the Americans in lifting," said coach Bob Hoffman, "but we're going to beat the Russians."

Anchor man on the team is heavyweight Paul Anderson, a 308-pound Georgia strongboy rated by Hoffman the "surest man we have to win a championship."

U. S. Weight Lift Team "All Ready"

SAN JOSE, Calif. (AP)—Uncle Sam's weight lifting team, called by its coach "the strongest we've ever had," is confident of defeating Russia in the Olympic Games at Melbourne next month.

"Nobody beats the Russians or the Americans in lifting," said coach Bob Hoffman, "but we're going to beat the Russians."

Anchor man on the team is heavyweight Paul Anderson, a 308-pound Georgia strongboy rated by Hoffman the "surest man we have to win a championship."

DeSoto Fireflite illustrated above is only 4 feet 7 inches high.

ANNOUNCING 1957 DESOTO Most exciting car in the world today!

New Beauty
For 1957 DeSoto presents Flight-Sweep '57—the new shape of motion. Incredibly low the new DeSoto is barely knee high to a parking meter. Yet, you'll find plenty of headroom and stretchroom thanks to DeSoto's new steel-cradle frame.

Exciting New Torsion-Aire Ride
Standard equipment on every 1957 DeSoto. The smoothest, softest ride you have ever experienced. Unequaled for safety and control DeSoto's new Torsion-Aire Ride eliminates nose-dive stops, even from high speeds. Takes corners like a sports car without lean or sway.

Completely New For 1957
• New Advanced Design V-8 Engines
Three exciting new power giants to choose from
• New Push-Button TorqueFlite the finest automatic transmission ever built
• New Lower Price DeSoto FireSweep priced just above the lowest

SEE IT! DRIVE IT! PRICE IT!

4 SIEGLER USES HEAT THAT'S 4 TIMES HOTTER OVER YOUR FLOORS!

Siegler is not a space heater that wastes heat up the chimney and on the ceiling forcing you to live in 1 or 2 rooms—

Siegler is not a central heating plant with expensive installations—

Siegler is a revolutionary method of WARM FLOOR HEATING . . . puts heat in every room WITHOUT COSTLY, DIRT COLLECTING PIPES & REGISTERS!

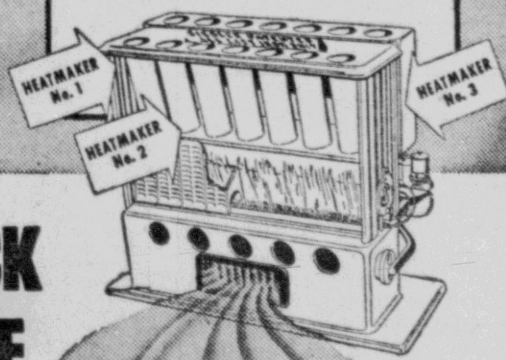

WARM, COZY FLOORS IN EVERY ROOM!

Siegler THREE-IN-ONE HEATMAKER

Siegler captures the Top-o'-the-Flame heat, doesn't waste it up the flue as ordinary heaters do. This extra, patented inner heater is built right into the heart of the hottest fire. It captures the 4 Times Hotter heat from the burner flame — pours it over your floors. Cuts gas bill tremendously.

HEATS LIKE MAGIC even with the gas turned OFF

Independence Day Big Role in Ohio Elections

COLUMBUS, Ohio (AP)—Leaders
of both political parties say Ohio's
"independent vote" may decide
the close contests in the Nov. 6
election.

From now until election day
they will devote particular at-
tention to voters without any definite
party attachment as well nominal
Democrats or Republicans who
vote for a smattering of opposi-
tion candidates.

Spurring their efforts is a pre-
diction by Secretary of State Ted
W. Brown that only about 34 mil-
lion Ohioans will go to the polls
next month despite a record regis-
tration. Brown's estimate is only
172 higher than the total of 3,749,
828 votes cast in the 1952 general
election.

Brown said he based his guess
largely on a total registration of
3,145,732 voters compared with 3,
072,372 four years ago. He said
the increase of only 73,360 indi-
cated apathy on the part of voters
this year. The secretary of state
said his figures for purposes of
comparison were adjusted to al-
low for a 2 per cent shrinkage in
preliminary registration totals
when duplications and other er-
rors are corrected.

Brown expressed disappointment
over the registrations that are re-
quired in all or parts of 37 coun-
ties. Residents of Ohio's other 51
counties can vote without register-
ing if they are 21 years old by
election day and have lived in the
state and their precinct for a year.
Registrations closed Sept. 26.

Party leaders showed concern
over failure of registration drives
in some areas to set new records
despite population increases.

Ray C. Bliss, Republican state
chairman, and William C. Cole-
man, Democratic state chairman,
said they would go all-out in woo-
ing the "independents" and get-
ting registered party members to
the polls.

Both expressed belief that slowly
increasing interest in the cam-
paign might bring out more voters
than Brown expects. Brown said
he hoped so, but stood by his usu-
ally accurate forecast.

Coleman said Ohio has one of
the largest independent voting seg-
ments of any state. "They are do-
ing a lot of thinking in our direc-
tion," he asserted.

The Democratic chief said he
also expected that nominal Dem-
ocrats who switched to President
Eisenhower in 1952 would desert
the Republicans and vote for Adlai
E. Stevenson this year.

Bliss had a different idea. He
said Eisenhower's active cam-
paigning has stimulated interest
in the election with the result that
more Ohioans than ever may mark
ballots.

And the Republican chairman
expressed confidence that Eisen-
hower will hold the independent
and "switch" voters who favored
him four years ago and attract
even more.

Bliss all along has warned of
voter complacency. He said high
employment and lack of war made
people more satisfied and less de-
sirous of a change. But he ob-
served that election interest has
picked up steam in the last 10 or
15 days and that the results may
show up at the polls.

Six major counties reported reg-
istration gains but four others fell
below 1952 totals.

NEWS VIEWS

BY RAY BRANDENBURG

According to some of the rumors I hear, there ought to be a revolution in the kitchen in the next ten years. Now, before the gentlemen in the audience get worried... I'm only referring to all the new appliances that are forecast for the home. Industrial designers are planning taps that will give a choice of water, soda, or hot coffee. Another gadget is a kitchen incinerator that will destroy combustible materials without odor, smoke or ash.

Then there's the ultrasonic oven that will bake a cake in two minutes... and a flock of other miracles that will cut down on household drudgery and give the lady of the house more leisure. In fact, one designer is afraid the ladies will have too much leisure. Do I hear any objection?

Do your children or grandchildren grab a plate of food and hustle into the living room to watch some special TV program? Ours do. And that ain't all, now my wife is getting the same habit.

I think we'll put the outfit in the kitchen and then I can watch too.

A couple of our 7 year olds, Chris and Bill stayed all night this weekend. I'll say it one thing, kids are not getting any quieter and they hate to go to bed just as bad as ever.

I took 4 year old Donald Wayne to the farm Thursday. We packed our lunch. Being busy I didn't watch the time. He came over and whispered very confidentially, Grandpa, I'm eating my sandwich. And sure enough he had dug it out and was pretty well along eating it. The time was 12 o'clock. Note: If you don't like kids, don't read this column.

The local philosopher says that one advantage in traveling the straight-and-narrow is that you don't have to worry about traffic jams... In or out of traffic jams, you'll sit comfortably and proudly in a brand - new CHEVROLET. Now's the time to talk trade-ins, so drop in to see us soon. R. School Board Members To Attend 'Open House'

Members of the Washington C. H. Board of Education have arranged to be at open house ceremonies Monday evening at each of the city's five elementary schools.

Board President Robert Terhune is to be at the Rose Avenue School, Elmer Reed at Eastside, Charles Pensyl at Sunnyside, Wil-

liam A. Lovell at Cherry Hill and Milbourne Flee at Central.

Terhune explained that board members will answer any questions about the \$645,000 building program proposal and the 2.5-mill levy for operating expenses. They also will accept any suggestions parents may wish to make to the board.

Milledgeville Carnival Totals \$347

Thursday night's Halloween Carnival at the Milledgeville School cleared \$347, it was announced Monday after all the bills had been paid and the receipts from the various phases of the event added up.

The carnival, sponsored by the Parent-Teacher Organization as an annual autumn event, started with a "jittery supper" at 5:30 p. m. Serving of sandwiches, potato salad, baked beans, pie, cake and coffee continued until 8 o'clock. Mrs. John Sheeley was chairman of the kitchen committee.

But even while some were still at supper, games had started in the school classrooms. Among the contests, those of the most interest were nail-pounding and the apple-bobbing.

One of the features of the evening was the masquerade contest in which Wanda Fichtorn took the prize for the ugliest costume; Diana Whited, the most original, and Melody Dunn and Lynn Jenkins the cutest.

The entire school had been decked out in typical Halloween decorations to create the atmosphere for the occasion.

Co-chairmen were Mr. and Mrs. Willard Dice and Mr. and Mrs. Robert Fichtorn. Mrs. Ralph Minton is president of the PTO.

Proceeds from the carnival went into the fund the PTO uses for school betterments and the extras that cannot be provided with tax money. Mrs. John Morgan, a spokesman for the organization, said no particular project has yet been selected, but indicated that one probably will be at the November meeting.

Holy Land Crisis

(Continued from Page One)

States has started consulting with Britain and France about the situation, in line with a 1950 Western Big Three pledge to take joint action to maintain peace and curb any aggression in the Middle East.

U. S. DIPLOMATIC missions in Israel, Jordan, Egypt and Syria received instructions to warn Americans to leave unless they are "performing essential functions." There are between 7,000 and 8,000 American officials, businessmen, tourists and others in the four countries. The State Department described the warning as a precaution until conditions improve. It said no "full-scale evacuation" was contemplated.

In the Israeli sector of Jerusalem the streets were almost deserted Sunday although it was a regular work day. Civilian transportation was slowed by the movement of troops and tanks.

Mounting tension has been noted the last three days. It was generally attributed to the formation in Amman last week of a joint Egyptian-Syrian-Jordan military command and recent hints that Iraqi troops might move into politically disturbed Jordan.

There are about 320 Americans in Jordan, 60 of them in Arab Palestine. About 100 of them are there in official capacities. There are 1,893 Americans in Egypt. Many are missionaries, teachers and businessmen.

The air of crisis was heightened by the announcement of Israeli military authorities today that three suicide bands of Arab commandos had crossed into Israel from the Egyptian-held Gaza Strip Sunday night and two of the groups were captured. Increased activity of these bands was one reason given for the Israeli move.

Jordan's tough little army, formerly called the Arab Legion, was reported deployed on the west bank of the Jordan ready to take the brunt of any Israeli attack. Jordan has defense alliances with Britain, as well as separate treaties with Iraq, Syria and Egypt.

CCC Highway Improvement Work Started

Project Embraces 16-Mile Stretch In Three Counties

Preliminary work is underway on a \$709,362 to improve a 16 mile stretch of the CCC Highway (Routes 3 and 62) in Fayette, Madison and Pickaway counties, the State Highway Department disclosed Monday.

Surveying of the road has been completed and workers are now grading and pulling out posts along the present route in preparation for the major task of widening and resurfacing which will be started in the spring.

The highway will remain open to traffic throughout the course of the job.

The route runs through Union, Marion and Madison townships, the Village of Mount Sterling, and as far east as Era.

Plans include grading, draining, widening and resurfacing the highway. The date set for completion is Sept. 30, 1957.

The John R. Jurgenson Co., of Newtown, was awarded the contract several weeks ago.

Just how the current improvement project will be related to a proposal for a four-lane limited access highway between Columbus and Cincinnati has not yet been made clear by highway authorities.

Gun, Indian Relic Show Scheduled During Weekend

Another large gun and Indian relic show and sale will be held here Saturday and Sunday, by the Central Ohio Gun and Indian Relic Collectors Assn., Inc. The public is invited to the show. There will be no admission charge.

If weather permits, the show will be staged in the Merchants Building at the Fairgrounds, and if the weather is too cold, it will be on the top floor of Memorial Hall.

President Otis Stookey is expecting another capacity crowd of exhibitors, and a large number of visitors.

The annual election of officers is scheduled at 2 p. m. Sunday. Lunch will be served by the women's auxiliary of the V.F.W.

Roy Smith Completes Navy 'Boot' Training

Apprentice Seaman Roy B. Smith, son of Mr. and Mrs. Roy B. Smith, Route 5, is expected home on leave Monday night after graduating from recruit training at the Naval Training Center, Great Lakes, Ill.

Smith was a member of his company drill team as well as the Great Lakes drill team which performed at the graduation ceremonies. His boot training included instruction in seamanship, gunnery, life saving, sea survival, boat handling and the use of small arms.

He had the highest grades in his company of 60 recruits. After spending his leave at home he will report to Electronic Technicians School, Great Lakes, on Nov. 26.

Police Probe New Reports Of Vandalism

Gale McConkey, 820 E. Market St., reported to police at 9:15 p. m. Sunday that someone had broken into his locked garage, and slit five bicycle tires and a basketball and cut the lead - in wire for his television some time between 2:30 and 8:45 p. m. Sunday.

Patrolman Hershel Taylor reported that nothing was missing from the garage.

Police Capt. Harley Haggard said "this looks like it might have been done by kids" and then commented that "vandalism is serious enough, but since the door was locked this is even more serious." He did not rule out the possibility that it might have been done by adults.

Another case of glass breakage also was being investigated by police. Kenneth Pitzer, 814 Leesburg Ave., reported that someone had broken the right half of the windshield on his car Saturday night while it was parked in the rear of his home.

Patrolman Virgil Harris made the preliminary investigation.

Millard P. Walls Dies Here Sunday

Millard P. Walls, 78, retired engineer for the Norfolk and Western Railroad, died at 10 p. m. Sunday in Memorial Hospital after a short illness.

A native of Scioto County, Mr. Walls' home was 12 miles west of Lucasville, but for the last few weeks he had been living with a brother, H. E. Walls, State Rd., near Jeffersonville.

Surviving are two sisters, Mrs. Myra Mercer, Sedan, Ohio, and Mrs. Florence Bowser, Dayton; two brothers, H. E. and Delbert, the latter of Sedan.

Friends may call at the Alvin G. Little Funeral Home, Jeffersonville, after 6 p. m. Monday and until Wednesday morning when the body will be removed to the residence near Lucasville for services at 2 p. m. Burial will be in Rushtown Cemetery, Scioto County.

Herschel Hulett, New Holland, Dies

Herschel (Bill) Hulett of Route 1, New Holland, died in his home Sunday morning. He was 65.

A retired farmer and furnace distributor and a lifetime resident of New Holland, he had been in poor health for three years.

He is survived by his wife, the former Lillian Gilmeier; a daughter, Mrs. Alfred Lininger, Washington C. H.; a son, Richard, New Holland; two sisters, Mrs. Virgil Dundon, New Holland, and Mrs. Fina Mumford, Lancaster.

Services will be at 2 p. m. Tuesday in the Kirkpatrick Funeral Home, New Holland. The Rev. Ralph E. Yoss of the Maple Grove Methodist Church will officiate. Mr. Hulett was a member of the church.

Burial will be in New Holland Cemetery.

Rheumatic Fever Magic Age Said 20

CINCINNATI (AP) — Age 20 appears to be a magic age for persons with a history of rheumatic fever, the American Heart Association (AHA) was told today.

Two New York researchers told

Mrs. Martha Paul, Chillicothe, Dies

Mrs. Martha Paul died at her home in Chillicothe at 10:30 p. m. Saturday after an illness of several months.

She is survived by two sons, Col. Hal S. Paul of St. Paul, Minn., and Fay M. Paul of Orlando, Fla., and a daughter, Miss Irene Paul, at home. She also leaves two grandchildren and two sisters, Mrs. Elizabeth Hettesheimer of Washington C. H. and Mrs. Daisy B. Smith, Lakewood.

Services are to be held at the Fawcett Funeral Home in Chillicothe at 1:30 p. m. Tuesday. Burial is to be in the Frankfort Cemetery. Friends may call at the funeral home after 4 p. m. Monday.

the association's annual scientific meeting that children who have had rheumatic fever and who reach their 20th birthday with only moderate heart enlargement or moderate leakage of heart valve may look forward to a life almost as long as that of their non-affected contemporaries.

Dr. May G. Wilson and Dr. Wan Lim, reporting the longest follow-up of rheumatic fever patients on record, told this story: Review of the history of 757 out of 1042 children observed during a 40-year period who reached the age of 20 or more produced the following findings:

1. Outlook for survival was primarily determined by the extent of heart damage sustained in the first two decades of life.

2. In four-fifths of the patients surveyed, only moderate heart enlargement was noted; and in more than one half, damage to heart valves could be considered minimal.

3. Recurrence of active rheumatic inflammation of the heart — which may increase heart damage — took place in less than three

percent of cases after the age of 20.

4. In general, adults with rheumatic heart disease have a more favorable outlook for survival than children. Among patients 20 to 52 years old, the average annual death rate was just about one-half that found among patients under 20.

The doctors said that survival curves for the entire group of patients who reached the age of 20 indicated that more than four-fifths would live to be at least 45.

In an address Sunday night, retired General Mark W. Clark, former commander-in-chief in the Far East, dramatized the toll of heart disease with these statistics from military life:

Approximately 8,000 men were given disability discharges from military service or died in mili-

tary service from heart disease during world war II and—

Approximately 317,500 men, or nearly seven percent of 4,828,000 rejected before induction as of August 1, 1945, by the Army, were rejected because of heart disease.

General Clark, now president of the Citadel, the military college of South Carolina, and campaign chairman of the AHA's "Heart Fund" during 1954-1956, said this manpower loss from heart disease—some 397,500 men—would have been sufficient "to man 27 Army infantry divisions."

Board President Robert Terhune is to be at the Rose Avenue School, Elmer Reed at Eastside, Charles Pensyl at Sunnyside, Wil-

liam A. Lovell at Cherry Hill and Milbourne Flee at Central.

Terhune explained that board members will answer any questions about the \$645,000 building program proposal and the 2.5-mill levy for operating expenses. They also will accept any suggestions parents may wish to make to the board.

TERHUNE pointed out that this will provide an opportunity for the people to get personally acquainted with at least one member of the board—more if they have children in more than one school, as many of them have.

City Superintendent W. A. Smith plans to go from one school to another during the evening in a get-acquainted gesture.

Teachers are to be in their classrooms to explain teaching methods being followed and the broad purposes of the overall educational program in the schools.

Examples of the work being done by the pupils is to be on display. The open house at the high school is to be held Thursday evening.

Telephone Strike

pel either side to follow recommendations.

An "ultimatum" handed Gov. Frank J. Lausche by the president of Ohio Consolidated hardly caused a ripple in the statehouse Sunday.

President Clare Williams demanded of the governor that "law and order" be reestablished in the Portsmouth area.

In a message delivered to the governor, Williams asserted:

"As a company, we believe this question has been met with temporizing and equivocation on all levels of government. It is now imperative that we have your personal answer on two questions. On what date will law and order be established in Portsmouth? By what agency will this establishment of law and order be effected?"

In a written reply, Gov. Lausche stood by his earlier position that he would send such forces as are requested by law officials in the area or the local Citizens Committee for law enforcement.

The exchange of messages came as the company faced a Tuesday deadline set by the state utilities commission for filing a plan for setting up emergency service in the Portsmouth area which has been without telephone service since Oct. 16.

Lausche's message pointed out that any new forces in the area would be in addition to the 61 state highway patrolmen now assigned to special duty there.

The Lausche message continued: "The citizens committee on law and order is made up of civic leaders representing businesses, industries, professions and churches and has in mind the good of the community. The members are decent Americans standing impartially between your company and the union."

"They want the maintenance of law and order and fairness both from your company and the union. They can be relied upon to do what is just and right."

"Before any service can be provided in the greater Portsmouth area," Williams' message to Lausche said, "it is necessary that law and order be effectively established and maintained so that central offices can be reactivated and damaged distribution plants be restored."

Asked if the message to the governor could be considered an "ultimatum," a company spokesman replied: "That's it."

Lausche has said that he would delay calling a special session of the Ohio Legislature as asked by the citizens group to revise state laws on strike situations until he has seen whether any progress is made in negotiations on a new contract between the company and the union.

CCC Highway Improvement Work Started

Project Embraces 16-Mile Stretch In Three Counties

Preliminary work is underway on a \$709,362 to improve a 16 mile stretch of the CCC Highway (Routes 3 and 62) in Fayette, Madison and Pickaway counties, the State Highway Department disclosed Monday.

Surveying of the road has been completed and workers are now grading and pulling out posts along the present route in preparation for the major task of widening and resurfacing which will be started in the spring.

The highway will remain open to traffic throughout the course of the job.

The route runs through Union, Marion and Madison townships, the Village of Mount Sterling, and as far east as Era.

Plans include grading, draining, widening and resurfacing the highway. The date set for completion is Sept. 30, 1957.

The John R. Jurgenson Co., of Newtown, was awarded the contract several weeks ago.

Just how the current improvement project will be related to a proposal for a four-lane limited access highway between Columbus and Cincinnati has not yet been made clear by highway authorities.

Gun, Indian Relic Show Scheduled During Weekend

Another large gun and Indian relic show and sale will be held here Saturday and Sunday, by the Central Ohio Gun and Indian Relic Collectors Assn., Inc. The public is invited to the show. There will be no admission charge.

If weather permits, the show will be staged in the Merchants Building at the Fairgrounds, and if the weather is too cold, it will be on the top floor of Memorial Hall.

President Office Stookey is expecting another capacity crowd of exhibitors, and a large number of visitors.

The annual election of officers is scheduled at 2 p. m. Sunday. Lunch will be served by the women's auxiliary of the V.F.W.

Roy Smith Completes Navy 'Boot' Training

Apprentice Seaman Roy B. Smith, son of Mr. and Mrs. Roy B. Smith, Route 5, is expected home on leave Monday night after graduating from recruit training at the Naval Training Center, Great Lakes, Ill.

Smith was a member of his company drill team as well as the Great Lakes drill team which performed at the graduation ceremonies. His boot training included instruction in seamanship, gunnery, life saving, sea survival, boat handling and the use of small arms. He had the highest grades in his company of 60 recruits.

After spending his leave at home he will report to Electronic Technicians School, Great Lakes, on Nov. 26.

DOWNTOWN DRUG

Police Probe New Reports Of Vandalism

Gale McConkey, 820 E. Market St., reported to police at 9:15 p. m. Sunday that someone had broken into his locked garage, and slit five bicycle tires and a basketball and cut the lead - in wire for his television some time between 2:30 and 8:45 p. m. Sunday.

Patrolman Hershel Taylor reported that nothing was missing from the garage.

Police Capt. Harley Haggard said "this looks like it might have been done by kids" and then commented that "vandalism is serious enough, but since the door was locked this is even more serious." He did not rule out the possibility that it might have been done by adults.

Another case of glass breakage also was being investigated by police. Kenneth Pitzer, 814 Leesburg Ave., reported that someone had broken the right half of the windshield on his car Saturday night while it was parked in the rear of his home.

Patrolman Virgil Harris made the preliminary investigation.

Millard P. Walls Dies Here Sunday

Millard P. Walls, 78, retired engineer for the Norfolk and Western Railroad, died at 10 p. m. Sunday in Memorial Hospital after a short illness.

A native of Scioto County, Mr. Walls' home was 12 miles west of Lucasville, but for the last few weeks he had been living with a brother, H. E. Walls, State Rd., near Jeffersonville.

Surviving are two sisters, Mrs. Myra Mercer, Sedan, Ohio, and Mrs. Florence Bowser, Dayton; two brothers, H. E. and Delbert, the latter of Sedan.

Friends may call at the Alvin G. Little Funeral Home, Jeffersonville, after 6 p. m. Monday and until Wednesday morning when the body will be removed to the residence near Lucasville for services at 2 p. m. Burial will be in Rushtown Cemetery, Scioto County.

Herschel Hulett, New Holland, Dies

Herschel (Bill) Hulett of Route 1, New Holland, died in his home Sunday morning. He was 65.

A retired farmer and furnace distributor and a lifetime resident of New Holland, he had been in poor health for three years.

He is survived by his wife, the former Lillian Gilmer; a daughter, Mrs. Alfred Lininger, Washington C. H.; a son, Richard, New Holland; two sisters, Mrs. Virgil Dundon, New Holland, and Mrs. Fina Mumford, Lancaster.

Services will be at 2 p. m. Tuesday in the Kirkpatrick Funeral Home, New Holland. The Rev. Ralph E. Yoss of the Maple Grove Methodist Church will officiate. Mr. Hulett was a member of the church.

Burial will be in New Holland Cemetery.

Rheumatic Fever Magic Age Said 20

CINCINNATI (AP) — Age 20 appears to be a magic age for persons with a history of rheumatic fever, the American Heart Association (AHA) was told today.

Two New York researchers told

Mrs. Martha Paul, Chillicothe, Dies

Mrs. Martha Paul died at her home in Chillicothe at 10:30 p. m. Saturday after an illness of several months.

She is survived by two sons, Col. Hal S. Paul of St. Paul, Minn., and Fay M. Paul of Orlando, Fla., and a daughter, Miss Irene Paul, at home. She also leaves two grandchildren and two sisters, Mrs. Elizabeth Hettessheimer of Washington C. H. and Mrs. Daisy B. Smith, Lakewood.

Services are to be held at the Fawcett Funeral Home in Chillicothe at 1:30 p. m. Tuesday. Burial is to be in the Frankfort Cemetery. Friends may call at the funeral home after 4 p. m. Monday.

the association's annual scientific meeting that children who have had rheumatic fever and who reach their 20th birthday with only moderate heart enlargement or moderate leakage of heart valve may look forward to a life almost as long as that of their non-affected contemporaries.

Dr. May G. Wilson and Dr. Wan Lim, reporting the longest follow-up of rheumatic fever patients on record, told this story:

Review of the history of 757 out of 1042 children observed during a 40-year period who reached the age of 20 or more produced the following findings:

1. Outlook for survival was primarily determined by the extent of heart damage sustained in the first two decades of life.

2. In four-fifths of the patients surveyed, only moderate heart enlargement was noted; and in more than one half, damage to heart valves could be considered minimal.

3. Recurrence of active rheumatic inflammation of the heart—which may increase heart damage—took place in less than three

percent of cases after the age of 20.

4. In general, adults with rheumatic heart disease have a more favorable outlook for survival than children. Among patients 20 to 52 years old, the average annual death rate was just about one-half that found among patients under 20.

The doctors said that survival curves for the entire group of patients who reached the age of 20 indicated that more than four-fifths would live to be at least 45.

In an address Sunday night, retired General Mark W. Clark, former commander-in-chief in the Far East, dramatized the toll of heart disease with these statistics from military life:

Approximately 8,000 men were given disability discharges from military service or died in mili-

tary service from heart disease during world war II and—

Approximately 317,500 men, or nearly seven percent of 4,828,000 rejected before induction as of August 1, 1945, by the Army, were rejected because of heart disease.

General Clark, now president of the Citadel, the military college of South Carolina, and campaign chairman of the AHA's "Heart Fund" during 1954-1956, said this manpower loss from heart disease—some 397,500 men—would have been sufficient "to man 27 Army infantry divisions."
